

Bluetooth Microphone

① LED Display
② Power on/off

③ 1500mAh Battery Capacity
④ Type-C

Parameters

Charging Type :	Type-C 5V/1A
Battery Capacity :	3.7V 1500mA
Charging Time :	3H
Battery Life :	10H
Microphone Core Type :	Dynamic Microphone Core
Microphone Chip :	AD6976D-M
Typical Transmission Power :	8dBm
Delay :	20-30MS
Impedance :	600 (±15%) Ω (at 1KHz)
Sensitivity :	-53.7DB(+3DB)
Frequency Response :	70Hz-13KHz
Operating Frequency :	A Frequency: 2400MHz B Frequency: 2400MHz
Effective Range :	10M

Mic Instruction

Once the speaker and microphone powered on, the microphone will connect with speaker automatically.
Then you can enjoy the karaoke function.
Or power off the microphone to disconnect with speaker.

Parameters

Precautions:

The microphone is constructed with metal and features a durable UHF dynamic core. It has a sleek and attractive design and possesses strong anti-feedback and anti-interference capabilities. This microphone effectively reduces ambient noise, has a heart-shaped directional pattern, sensitive sound pickup, and delivers pure and sweet audio quality. It produces clear and melodious vocal performances, allowing you to sing with a rich and enjoyable sound. Additionally, it connects instantly without the need for pairing or a power-on process.

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has evaluated to meet general RF exposure requirement. The device can be used in portable exposure without restriction.
