About The Music & Sound:

There are 3 fun musics and 2 volume options, you can choose different volumes and change the music by pressing the music button.

Standby Mode:

The remote control car will enter standby mode if it stops working for 10 minutes. The car restarts working through only one touch of any button on the car, such as the music button, the engine starting sound button or the switch.

NOTE: No matter how you press the button on the remote control, the car entering standby mode will not restart.

BATTERY REQUIRE

The remote requires 2 AA batteries (Not Included)

The remote control car requires 3 AA batteries (Not Included)

HOW TO USE

1. Open the battery compartment with screwdriver to put the batteries into the car and the remote. Replace the battery cover and tighten the screws.
2. Turn on the switch on the bottom of the car, the music begins and the headlight flashes. You can choose different volumes through Switch ON / VOL 1 or Switch ON / VOL 2 according to your needs. Also you can change or turn off the music through the button on the rear of the car at will. (Music ends, lights off.)
3. Before operating, you can press the figures or the button under the figures, then you will hear the sound of the engine starting.
4. Turn on the switch of the remote, you can operate it to move forward and reverse left. (Lights on while driving.)

QUESTION & ANSWER

1. What's the material of the car?
It's made of high quality Acrylonitrile Butadiene Styrene (ABS).
2. What's the material of the tire? Can it be used on the carpet?
Rubber material, suitable for various scenarios, preferably on flat ground for a better driving experience.
3. Is it possible to operate multiple cars at the same time?
Yes, the cars use different frequencies and can support at most 4 different models cars sold in our store to drive at the same time.
4. Can the music be turned off? If possible, how to turn it off?
Yes, the music starts once the car turns on, and it will change with each click of the button. Until 3 songs switch ends, the music pauses with the 4th click. If you press it again, the music will restart.

FCC Compliance Statements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
