

Product Instruction Manual

Please read this user manual carefully before using product.
This user manual is for reference only, and the actual product shall prevail.

Information to User

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

Indicator status

Green light out	Machine Power Off
Green flashing	Bluetooth not connected
The green light is on.	Bluetooth connected

Operating instructions

Power on/off

Press and hold to power on.

Install Paper

01

Fasten the paper bin clasps on both sides and open them to the sides.

02

Install the paper roll with the thermal side facing outward as shown below.

03

Adjust the position of the paper limiter according to the width of the paper roll, and lock the paper limiter into the card slot after adjustment. If label paper is used, a paper limiter is required. If ordinary printing paper is used, no paper limiter is required.

04

Pull out a small piece of paper and close the lid.

APP Download

Scan the QR code to download the APP.
