

OPERATING GUIDE

SMART WATCH

*PLEASE READ THE USER MANUAL BEFORE USING PRODUCT

1 Open the package and take out the watch

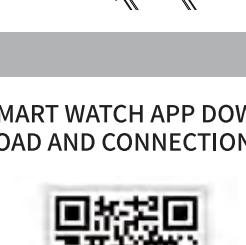

2 Wear the smart watch, long press the knob button to turn it on

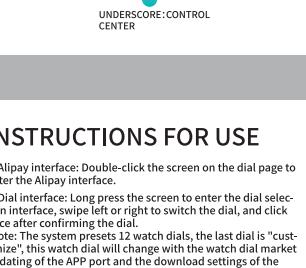

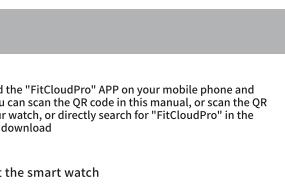

3 Scan the QR code with your phone to open the APP FitCloudPro on your phone to set up the device

CHARGE AND ACTIVATE

Align the magnetic charger with the magnetic hole on the back of the watch until it reaches the watch screen. When the charging prompt appears, please charge the watch in time when the power is low. The backup is an all-in-one machine, and the rear shell and battery cannot be removed.

BUTTONS AND TOUCH

SMART WATCH APP DOWNLOAD AND CONNECTION

Scan the QR code above to download

1. Download the "FitCloudPro" APP on your mobile phone and install it. You can scan the QR code in this manual, or scan the QR code on your watch, or directly search for "FitCloudPro" in the APP mall to download

2. Connect the smart watch

1) Scan the QR code to connect: After the mobile phone turns on the Bluetooth, enter the APP. Note: If the APP cannot be opened, please turn on the positioning of your phone and then open the APP) Click on the device → Click on "Add Device" → Click on "Scan".
2) Manual connection: After the mobile phone turns on the Bluetooth. If the APP cannot be opened, please enable the mobile phone positioning function and then open the APP) Click "Device" → Click "Add Device" → Click "Search Device" (Find the corresponding item in "Settings" → "System" → "System Information" in the watch sliding menu) → "Bluetooth" → "Search Device" → "Add Device".
3) Connect to Bluetooth call: In the initial state of the watch, the Bluetooth call is turned off, and the call and music functions cannot be used at this time. Slide down to open the "Control Center", click the "Headphone" icon, turn on the audio mode, and then turn on the Bluetooth call in the mobile phone system (when the mobile phone's Bluetooth is turned on/off, find the corresponding Bluetooth name, and click to connect). After the connection is successful, the call and music functions can be used normally.

INSTRUCTIONS FOR USE

1. Alipay interface: Double-click the screen on the dial page to enter the Alipay interface.

2. Dial interface: Long press the screen to enter the dial selection interface, swipe left or right to switch the dial, and click once after confirming the dial.

(Note: The system presets 12 watch dials, the last dial is "customize", this watch dial will change with the watch dial market updating of the APP port and the download settings of the watch dial)

3. Menu interface: On the dial interface, press the knob on the side to enter the menu interface. After entering the menu interface, press the lower knob twice in quick succession to enter the menu switching interface, and press it to return to the main interface.

4. Function interface: Click the application icon on the menu interface to enter the corresponding function interface, swipe right to return, and press the side knob to return to the main watch dial interface.

FUNCTION INTRODUCTION

| | |
|--------------------|---|
| ALARM CLOCK | After the smart watch is connected to the APP, you can set a single mode alarm clock, a cycle mode alarm clock, and a maximum of 5 alarm clocks. |
| STOPWATCH | Click the start button to start timing, click the pause button to pause the timing, and click the reset button to reset the timing to zero. Up to 99 pieces of data can be saved. |
| BREATHING TRAINING | There are 1 minute and 2 minute options for breathing training. The user clicks the corresponding duration to perform breathing training. After clicking start, follow the icons in the breathing training to zoom in and inhale, and zoom out and exhale. |
| BLOOD PRESSURE | When entering the blood pressure measurement interface, the green light at the bottom lights up to start the test for 30-60 seconds, and there will be a vibration reminder when the measurement is completed. This measurement is a measurement based on PPG technology. |
| WOMEN'S HEALTH | After the device is connected to the APP, turn on the women's health reminder on the APP, and you can view the women's health reminder information on the watch. |

| | |
|--------------|--|
| HEART RATE | When entering the heart rate measurement interface, the bottom green light lights up to start the measurement, and there will be a vibration reminder when the measurement is completed in about 40 seconds. If it prompts "not wearing the watch", you need to re-wear the watch. |
| BLOOD OXYGEN | When entering the blood oxygen measurement interface, the green light at the bottom lights up to start the test for 30-60 seconds, and there will be a vibration reminder when the measurement is completed. This measurement is a measurement based on PPG technology. |
| SPORTS | Options for sports mode: walking, running, cycling, mountaineering, swimming, yoga, elliptical machine, basketball, etc., click the icon to start the exercise interface. |
| WEATHER | After the device is connected to the APP, the weather interface will display the real-time weather temperature and content. |

| | |
|-------------------|---|
| FIND MOBILE PHONE | After the device is connected to the APP, click to find the mobile phone, the mobile phone will ring to indicate that the search is successful; if the watch is not connected to the APP, the watch will prompt that it is not connected. |
| TIMER | In the timing function, the system presets the commonly used timing duration. Users can click the corresponding duration to quickly set the timing, or click the custom button to set the time. Click the start button to start the timing, click the pause button to pause the timing, click the reset button to reset the timing to zero. |
| CONTROL CENTER | After the device is connected to the APP, open the relevant message push on the APP port, the device port can receive the corresponding message push, and can save up to 15 recent messages. |
| CONTROL CENTER | Overview of functions: Do not disturb, turn on the wrist to brighten the screen, brightness, settings, find mobile phone, power saving mode, system information. |

| | |
|-------------------------|--|
| SETTINGS | The functions of settings include screen display (switching dials, brightness adjustment of the screen time, turning the wrist to brighten the screen), language, vibration intensity, menu style, battery, QR code, and system. |
| MUSIC | After the device is connected to the APP, it can control the pause and start of the mobile phone music player, adjust the volume and switch songs. |
| SEDENTARY REMINDER | You can set the "Sedentary reminder" to be turned on in the APP. After turning it on, you can set the start, end time, and do not disturb time period. |
| DRINKING WATER REMINDER | It can be turned on in the "Settings" -> "Drinking water reminder" of the App. After turning on, you can set the start, end time, and reminder interval. |
