Solder Board-Component View 3	 A photograph of a yellow printed circuit board (PCB) component, labeled 'View 3', placed on a blue textured surface. The component is rectangular and populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller surface-mount components, and a silver cylindrical component on the right. A black L-shaped ruler is positioned to the left and bottom of the component for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 4	 A photograph of the same yellow PCB component, labeled 'View 4', showing a different side or a different component. This view shows a large, square, silver-colored component in the center, possibly a heat sink or a specialized IC. The component is populated with various electronic components, including a large black integrated circuit (IC) in the center, several smaller surface-mount components, and a silver cylindrical component on the right. A black L-shaped ruler is positioned to the left and bottom of the component for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 5	 A photograph of a small, rectangular electronic component, likely a solder board component, placed on a blue background. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is dark in color and has several small, gold-colored pins or solder points visible along its edges. The text "K12510C2P2" and "F306P0002" is visible on the component's surface.
Solder Board-Component View 6	 A photograph of the same electronic component from a different perspective, showing its top surface. The component is dark and rectangular, with a few small, circular holes or solder points visible. It is placed on a blue background next to a black ruler with white markings, showing measurements in millimeters (0 to 100) and centimeters (0 to 10).
