

IC-31C 15W产品说明书

尺寸: 280*100mm 双面印刷

材质: 128克铜版纸

 <p>Radioshack MAGNETIC WIRELESS CAR CHARGER MODEL: 2733367 USER MANUAL</p> <p>Thank you for choosing the RadioShack Magnetic Wireless Car Charger 2733367! We appreciate your purchase and hope you enjoy its quality. To get the most out of your device, please read these instructions carefully and keep this guide for future reference.</p>	<p>Product Features</p> <ul style="list-style-type: none">1. Automatic alignment via a built-in magnet and wireless charging coil ensures charging begins when a compatible phone is placed on the pad.2. Standby: solid ice blue light.3. Charging: pulsing ice blue light.4. Foreign object detection function: pulsing ice blue light indicates metal or magnetic object detection on the charger.5. Over-voltage, over-current, over-temperature, and short-circuit protection. <p>SPECIFICATIONS</p> <p>Input:DC 9V/1.5-2A,5V/2A Output:15W/10W/7.5W/5W Product Standard:Qi Charging Distance: 10mm Charging Efficiency: 80% Product Dimension:63*30.5*100mm Product Material:ABS+Tempered Glass</p> <p>Package content</p> <ul style="list-style-type: none">- 1x Wireless Charger- 1x Charging cable- 1x User manual	 <p>Quick wireless charging requires QC or PD adapters.</p>	<p>OPERATING INSTRUCTIONS</p> <ol style="list-style-type: none">1. Connect the charger to power before use.2. The ice blue light remains on when powered.3. The pulsing ice blue light indicates charging will stop due to overcurrent or foreign object detection. Avoid wireless charging under these circumstances.4. Wireless charging requires a compatible phone or separate receiver /case (not included). <p>ATTENTION AND TROUBLESHOOTING</p> <ol style="list-style-type: none">1. Handle with care. Avoid forceful impacts.2. To prevent short circuits, do not disassemble, expose to fire, or submerge while powered.3. Prevent circuit damage by avoiding extreme temperatures, high humidity, or corrosive environments.4. Avoid placing magnetic strips or chip cards (e.g. ID cards, bank cards) on the charging pad to prevent loss of effectiveness.5. Do not place metal objects, like coins, on the charging pad while charging to prevent heat damage.6. Check the position of the device: Place the device in the center of the charging platform, without obstacles.7. Check the case: Remove the case or any accessories that may interfere with charging.8. Check compatibility: Check that the device is compatible with wireless charging.9. Check the cable and adapter connection. If still not working, replace the cable or adapter with a known good one.10. Slow Charge: check your AC Adaptor, Fast Wireless Charging requires Quick wireless charging requires QC or PD adapters.	<p>FCC Warning This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:<ul style="list-style-type: none">- Reorient or relocate the receiving antenna.- Increase the separation between the equipment and receiver.- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.- Consult the dealer or an experienced radio/TV technician for help.FCC RF exposure statement: The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.</p>
