## Overview Of Headset

## Introduction

**I User Manual**  
Power on: Take out earbuds into charging bin to turn on.  
Power off: Put earbuds into the charging bin, they would turn off automatically

**II Pairing**  
**Single earbud connection**  
1. Take out only one of the earphones in the charging compartment, and the headset will be searched Status, red and blue lights flash alternately.  
2. Turn on your phone Bluetooth device to search "TWSLB Pro" and connect. When the phone connected successfully, the blue light will flash and will hear the prompt voice "Connected".

### Double earbuds connection

1. Take out the earphone from the charging compartment, the red and blue lights of the two earphones flash, and enter the main and auxiliary earphones After successful connection, the auxiliary earphone lamp will flash into blue light, and the main one will flash The headset still keeps the red and blue lights flashing, entering the search state.
2. Open the mobile phone or other Bluetooth devices and search for the main headset "TWSLB Pro" After that, click the pairing connection. After success, the light will flash into blue light, and then the double light will flash Ear connection is complete, you can enjoy wonderful music through wireless headset Or dial and answer the call.
3. **Re-connection:** It will be connected the paired mobile phone automatically while power on (the premise is: that the Bluetooth on the phone is open, and the Bluetooth does not clear the matching record with the device)

## How To Use

(Note:  
1. This two earbuds has been paired at the factory. So when you receive the headsets (two), you just need to take out the earbuds from the charging case.  
2. If you need to reconnect the earphone by yourself, long touch MFB button of both earbuds until the red & blue light flash alternately. After the earbuds paired successfully, the blue light will flash slowly. After few seconds, the main earbud flash red & blue light alternately to connect the phone. (If the pairing isn't successful, please put the earbuds back to charging bin to reset operation and then operate again).  
3. In TWS mode, when one of earbud battery low, both of them will automatically turn off. Or the Bluetooth device stop connection within 5 minutes, the earbuds will turn off automatically).

**Note:**  
If one of the earbud doesn't work, please turn off the Bluetooth device of the phone, put back earbuds into the charging bin firstly, then take two earbuds out of the charger and keep them turn on, then press once for each earbuds, after that it will flash red & blue lights 1 to 10 seconds, two earbuds paired successfully, and then the blue light flashes only. Repeat step 1 and step 2 to reconnect with phone.

## Specifications

**Bluetooth Specifications**  
Bluetooth Version: V5.0  
Profile Support: HSP/HFP/A2DP/AVRCP  
Stand-by Time: 900 h  
Talk Time: 5 h  
Music Play Time: 3.5 h  
Charging Time: 1 h  
Charging Voltage: DC 5V  
Frequency Range: 2.402G-2.480G  
Ambient Temperature: -20°-60 °C  
Transmission Distance: 10m  
Earbuds Battery Capacity: 35mAh / 3.7V  
Charging Case Battery Capacity: 850mAh / 3.7V  
**Driver Specification**  
Driver Unit: 10mm  
Sensitivity: 90dB ± 3dB  
Impedance: 32Ω ± 15%  
Frequency Response: 20-20000Hz

## Safety And Maintenance

Please read suggestion below in order to help prolong the product lifespan and clearly understand the warranty clauses.

- Keep the product dry, do not put it in humid circumstance to avoid short circuit.
- Do not expose it to the sun or high heat. High heating will short lifespan of electronic components, damage battery and deform some plastic parts.
- Do not put it in cold circumstance to avoid damage to PCB board.
- Do not attempt to take apart the product, especially non-professionals.
- Do not fall, vibrate strongly, strike with hard objects, to avoid damage to inner electronic circuit.
- Do not use high chemical products, detergent to clean the item.
- Do not scratch the surface with sharp items to avert damaging the case and appearance.
- Do not make it charging 10 hours continuously for the sake of lifespan.

If the product can not work properly, please send it to DR-30 PLUS authorized maintenance agents.

**Statement:** In order to improve product performance we will upgrade products, the content may change without notice, please forgive! Thank you for your purchase.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
