Instructions

I Install the blade holder

Tips: The blade will gradually become dull when use a lot, which affects the cutting quality, it is recommended to replace it in time

II Power connection, Starting up

Please use AC 100-240V : connect the adapter and power cord, and connect the other end of the power cord to AC 100-240V; the adapter's DC output line plug is connected to the input port of the film cutter; install the blade holder to make sure it is fixed at the right position of the carriage head. After the connection and installation are completed, press the power button to start the device.

III Screen film cutter machine operation

When using it for the first time, click "Set Network" to complete the wifi connection, click "Mine" in the lower function bar, and find "Select Language" to complete the language setting.

After the system starts normally, enter the homepage

Enter keywords in the search box, search for the product model you need to cut, and select the corresponding model.

IV Cutting film

1.Please prepare a protective film to be cut as shown in the picture to ensure that the protective film is flat and the film layer is complete without bending, folding or missing layers.

2. With automatic paper feeding: Push the protective film smoothly to the dotted area to let go.

3. After checking that the protective film is properly placed, select the desired protective film model in the display screen of the film cutting machine or through Bluetooth in the APP interface, and click "start cutting" to cut.

4. After the cutting finished, the protective film will be automatically pushed out, take out the protective film, and complete the cutting.

V The content of the manual will be revised irregularly according to product upgrades, which may be different from the actual product. Please refer to the actual product. Please forgive us for any inconvenience caused!

产品参数	
Touch Screen	5.5inch, 1280*720dpi
Auto Feeding	standard included
Wifi	2.4G standard Wifi
Max Cutting Force	500g
Max Paper Feed Width	Width 205mm (Length unlimited)
Max Cutting Width	Width 180mm (Length unlimited)
Cutting Precision	0.1mm
Repeatable Precision	0.05mm
Power	48W
Voltage	IN AC100V-240V DC24V 2A
Machine size	284x166x156 mm
Net Weight	3.7KG

Notice

	Avoid scratching your fingers
	The working environment where the machine is placed must be clean and tidy to prevent metal liquids from falling into the machine and cause fires, and there must be enough installation space.
	It is forbidden to damage or replace the original power cord. Do not excessively bend, pull, bind, or press the power cord under heavy objects to prevent damage to the power supply and cause electric shock or fire.
	If you do not use the machine for a long time, please disconnect the machine power to prevent fire.
	The table where the machine is placed must be flat and stable to prevent the machine from falling.
	When you want to disconnect the power, please grip under the plug and pull it out. Do not pull the cable. Forcibly pulling the cable may cause electric shock or fire.
	Prohibited to use during thunderstorms to avoid being hit by lightning
	Prohibit unauthorized disassembly

Scan the QR code, please download the film cutting machine App according to the prompts

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
