## **Smart Update Device**

———— **User Guide** ————

# 1 Device Appearance

Please refer to Page 6 for different appearances.

## 2 Operation

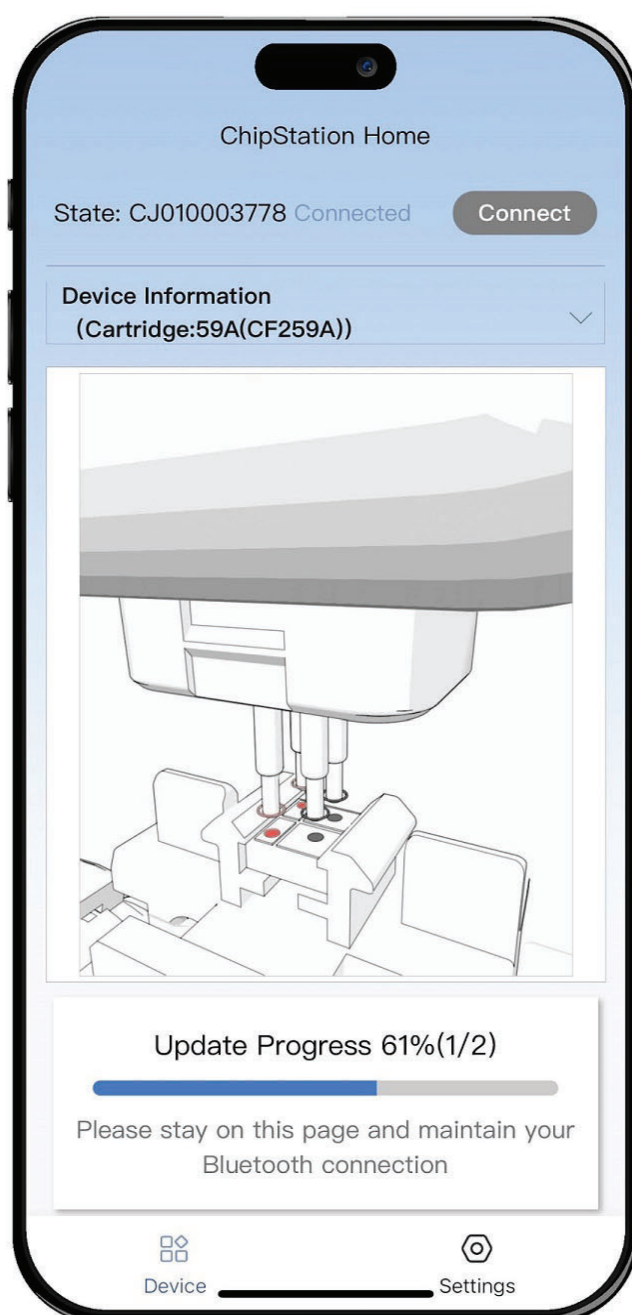

Download the ChipStation Home app on the Apple App Store or Android Market, or by scanning the QR code on the label on the device. Open the app and enter the main page.

Connect the device to the power supply. Touch the “Connect” button and connect your desired device to the app.

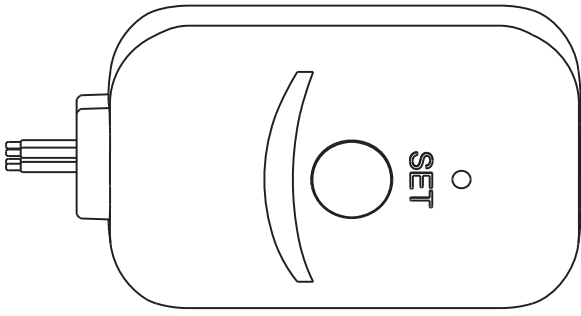

The device firmware will be updated to the latest version automatically.

Follow the illustration in the app to update the chip.

### 3 Specifications

Device Appearance	Dimension	Weight
	81*41*24mm	27g

# Power Requirements

Input Voltage	5V
Input Current	1A

# Material

Shell	ABS
-------	-----

# Accessory

USB	4 core black Type-C cable, 1A, 50cm
-----	-------------------------------------

## FCC Statement

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .
