

Quick Start Guide

Pairing with your iOS device:

1) On iOS device, turn Bluetooth on.

With back cover removed, pull battery tab and press on the top of battery to ensure it is not loose.

A sound will briefly play, indicating tracker is in pairing mode

2) Open Find My app. Tap "Items" icon at bottom of the screen. Next select "Add Item" and then select "Other Supported Item". Your iOS device will now search for your HS200.

To replace battery:

Pry apart the battery cover using the screwdriver or your fingernail

To factory reset the device:

To factory reset the device, remove the cover and battery. With the button pressed, insert the battery into the compartment until you hear the reset tone.

Note: Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or use of this product or its compliance with safety and regulatory standards.

Apple find My, Apple Watch, find My, iPhone, iPad, iPad Os , iPod touch, Mac, macOS and watchOS are trademarks of Apple Inc. IOS is a trademark of Cisco and is used under license. To use the Find My app to locate this item, the latest version of iOs®, iPadOs®, or macOS® is recommended. The Find Items app on Apple Watch" requires the latest version of watchOS.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
