

User Manual mobile phone

Welcome to use the android smart phone

Simple instructions

- SIM MicroSD method of use
- keyboard function
- Manage your contacts
- Make a phone call
- Record the moment
- Keep moving pieces
- Appreciate the colorful pictures
- Send an E-mail
- Enjoy the wonderful music
- Use the Internet

1

Know your mobile phone

Welcome you to experience the high quality of the smart phone, let us know first before use parts of the phone.

- SIM MicroSD method of use

Will screen printing graphic in SIM card according to the fuselage, inserted into the booth. Avoid registration failed, please in strict accordance with the graphic operation.

- keyboard function

Under the arbitrary interface

↔.Return to the higher level interface or exit the program

🏠.Return to the main screen

☰.Open the menu Settings list

•Press the power key, closed or light up the screen

•At the same time hold down the power button and volume down key, capture screen

2

- Manage your contacts

👤. Open the 【The contact】.

• When using mobile phones for the first time, you can click on the contact interface. 【Manage your contacts】. Contacts to other storage devices in the mobile phone. Click on the 【group】 The label. You can also contact for group classification, facilitate management.

- Make a phone call

☎ Open the 【dial】.

👤 You can dial telephone, or click on the search person to make a phone call. Through the

3

- Record the moment

📷 Open the 【camera】.

With a back photo camera, high support intelligent, beautiful skin, HDR, special effects, such as a variety of photo mode Smiling face automatic identification function allows you to instantly captured the most satisfying smile Support automatic or manual touch screen focus focus, press. 📷 Easy to obtain high quality photos.

- Keep moving pieces

📺 Open the 【camera】. Switch to video mode

Full hd video, smooth quality of, will bring you an unprecedented video experience Press the 📺 At any time video important moments in your life.

4

- Appreciate the colorful pictures

Open the 【gallery】

Browse pictures at any time, memories moved instantly

Choose a photo album , 【slideshow】. Mobile phone to a digital photo frame. Play photos for you.

Browse a picture. Enter edit mode, you can cut to a photograph, color adjustment, increase the filter effects beautification operation.

- Send an E-mail

Open the 【E-mail】

Set the email account, you can through the mobile phone to send and receive E-mail, keep in touch with friends or customers anytime and anywhere.

5

- Enjoy the wonderful music

Open the 【music】.

carrying “Sound effects +” . Can be attached by the optimization of the double track earphone experience dolby surround sound, feel more natural more clear treble and bass. At the same time, the expressive force of speakers have been optimized, to bring you a higher quality of auditory enjoyment.

Please use the attached with headphones.

- Use the Internet

• Open the starting page of the brower, users can enter into input URL, search, bookmarks, history and stored pages through the interfaces. Press Menu button to open more menus: homepage, settings, clear records and exit brower homepage, and users can the homepage of ISP internet (set in advance or

a When using the Internet service, it is recommended that you use WIFI link network. If you use the SIM card network, charge carriers.

FCC& ISDE Statement

This device complies with Part 15 of the FCC Rules and with industry Canada licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: 1. This device may not cause interference. 2. This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil est conforme à la partie 15 des règles de la FCC et aux émetteurs/récepteurs exempts de licence d'Industrie Canada qui sont conformes aux RS exempts de licence d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes : 1. Cet appareil ne doit pas causer d'interférences. 2. Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 du CNR - 102 et conformité avec RSS 102 de l'exposition aux RF, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs RF et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.

Specific Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC&ISED RF Exposure Information and Statementthe SAR limit of USA (FCC) and Canada(ISED) is 1.6 W/kg averaged over one gram of tissue. Devicetypes: device has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the device kept 0mm from the body. To maintain compliance with FCC&ISED RF exposure requirements, use accessories that maintain an 10mm separation distance between the user's body and the back of the device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC&ISED RF exposure requirements, and should be avoided.

Informations sur le débit d'absorption spécifique (DAS) :

Cet appareil répond aux exigences du gouvernement en matière d'exposition aux ondes radio. Les lignes directrices sont basées sur des normes qui ont été élaborées par des organisations scientifiques indépendantes grâce à une évaluation périodique et approfondie d'études scientifiques. Les normes comprennent une marge de sécurité substantielle conçue pour assurer la sécurité de toutes les personnes, quel que soit leur âge ou leur état de santé. Informations et déclaration sur l'exposition aux RF de la FCC&ISDELA limite du DAS des États-Unis (FCC) et du Canada (ISDE) est de 1,6 W/kg en moyenne sur un gramme de tissu. Devicetypes :device a également été testé par rapport à cette limite DAS. Cet appareil a été testé pour des opérations typiques portées sur le corps avec l'arrière de l'appareil maintenu à 0 mm du corps. Pour maintenir la conformité aux exigences d'exposition RF de la FCC et d'ISDE, utilisez des accessoires qui maintiennent une distance de séparation de 10 mm entre le corps de l'utilisateur et l'arrière de l'appareil. L'utilisation de clips de ceinture, d'étuis et d'accessoires similaires ne doit pas contenir de composants métalliques dans son assemblage. L'utilisation d'accessoires qui ne satisfont pas à ces exigences peut ne pas être conforme aux exigences d'exposition aux RF de la FCC&ISDE et doit être évitée.
