Product Name: Wireless Earphones
Product model: XT-16

Please read the user manual before use

Important notice: If the product cannot be used normally after receiving it, it may be due to a long transportation process that has exhausted the battery. Please plug in the charging cable to fully charge it After use

Connection Tutorial

1. Open the lid and remove the headphones. Two earphones will flash
2. Open the wireless BT on your phone, search for the wireless BT name of the headphone device, and then click connect. If you encounter a situation where the earphones are connected to one ear or the device cannot be found, please put the earphones back into the charging case, remove the earphones from the charging case again, wait for about 5 seconds, and then pair them with the phone. Repeat the above steps. If you still cannot connect, please check if the earphones are charged. After successfully connecting the phone, you can use it normally. There is no need to connect in the future. Open the cover and remove the earphones, wait for a few seconds to automatically connect. If you need to replace the connected phone, please first turn off the wireless BT function of the connected phone, and then repeat the above steps with a new phone
3. Simply put the earphones back into the charging case to disconnect them

common problem

What should I do if my earphones or charging case cannot be charged?
Check if the charging cable is charging other devices normally, or replace other charging cables to try charging
What should I do if there is only one headphone connection?
If the earphones are connected to a single ear or unable to search for devices, please put all earphones back into the charging position of the charging case, then remove the earphones from the charging case again and wait for about 5 seconds. Then perform mobile phone pairing and connection. (Repeat the above steps. If unable to connect, please check if the earphones are charged)

warning

1. Do not hit or squeeze the product
2. Headphones should be stored in a dry and ventilated environment, avoiding contact with oil, water vapor, steam, moisture, and dust to avoid affecting product performance. Avoid using irritating organic solvents or items containing these ingredients to clean headphones.
3. Do not place this device in environments with low or high temperatures (below 0 ° C or above 45 ° C)
Do not use this device during thunderstorms. Thunderstorms can cause equipment malfunctions and increase the risk of electric shock.
5. Do not let the device get wet from liquids
6. Please remove the router and other wireless devices to avoid interference with other products using 2.4GHz signals:
7. Please use this product within a valid distance (10 minutes). This product is suitable for all mobile phones, laptops, tablets, and desktop computers with wireless devices
8. Do not use fast charging or flash charging to charge the charging case! Please use a charger with a rated voltage of 2.5-5V or a computer USB charger for charging

Tip: The power provided by the charger must be between the minimum 2.5 watts and maximum 5 watts required by the wireless device to achieve maximum charging speed.

PMN: Wireless Headphones
HVIN: XT-16
FCC ID: 2BEAM-XT-16
IC: 34039-XT16

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC Warning

- English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1.This device may not cause interference.

2.This device must accept any interference, including interference that may cause undesired operation of the device.

- French: Cet appareil contient des émetteurs/récepteurs exemptés de licence qui sont conformes aux RSS exemptés de licence d' innovation, sciences et développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes:

1. Cet appareil ne peut pas causer d'interférences.

2. Cet appareil doit accepter toute interférence, y compris les interférences qui peuvent causer un fonctionnement indésirable de l' appareil.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be usedin portable exposure condition without restriction.

L'appareil a été évalué pour répondre aux exigencesgénérales d' exposition aux radiofréquences. L'appareil peut être utilisé en condition d' exposition portable sans restriction.
