OPERATING INSTRUCTIONS

There are two operating methods: one is through a remote controller, and the other is through Magic Lantern App. The specific operating ways for both methods are explained below.

Remote Control Description:
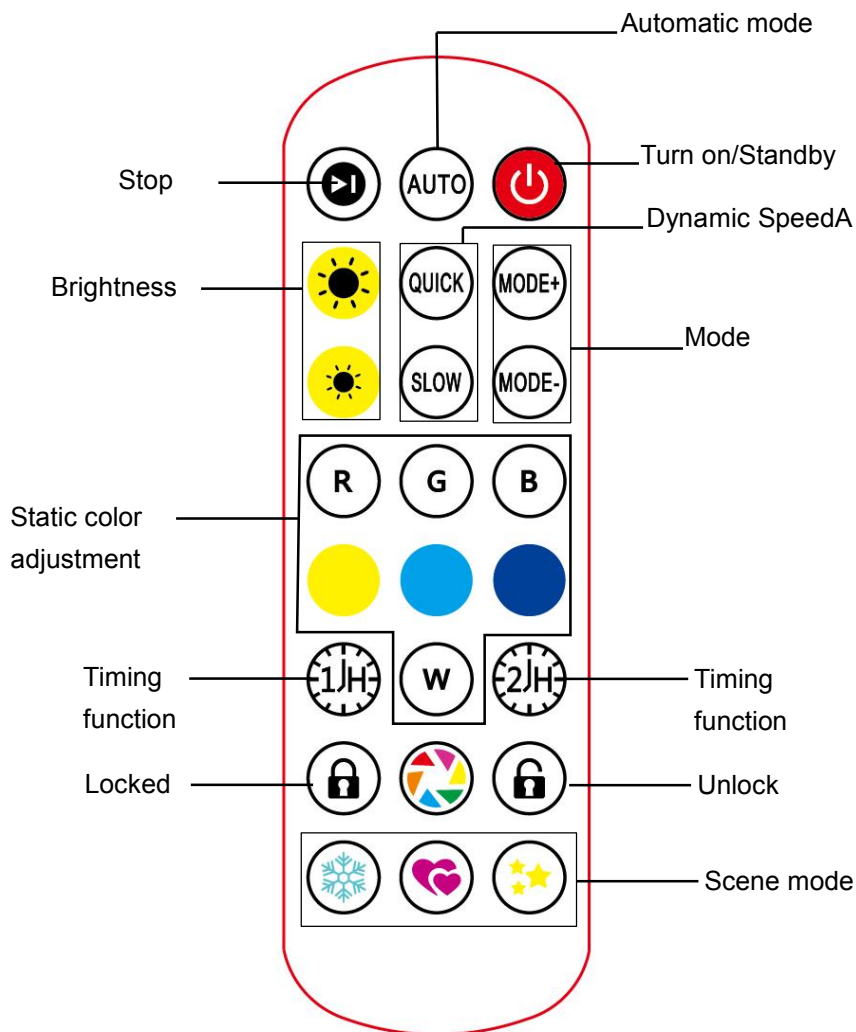

Operation manual of remote controller：

1. Using Remote Controller;

Please pull out the battery insulate tape before using. The 2.4G remote signal can pass through barrier，so it's not,necessary to aim at the main unit when operate.

2. Pairing New RemoteThe remote and main unit is 1 to 1 paired as default Further more, main unit can bepaired to 3 remote controllers and each remote

controller can be paired to any main unit.

3. Free Remote Pairing Mode;

In some specific cases,the main unit may need to be paired to any remote controllers. Please do following steps for free remote pairing mode:Plug off the power of main unit and plug in after seconds.

4. Switch Output Color Sequence;

The controller's default output signal sequence 1sCommon-Green-Red-Blue.If the LED application is in different cable sequence, the direct color keys will not match the LED color. In this case, user can adjust the output signal sequence.

Note: The peak output current is 4 amperes and maximum constant current is 2 amperes per channel. Please reduce load if main unit is overheating.CAUMIONI Do not short circuit or overload the LED outputs,this may lead to permanent damage!

⏻	Press on or enter the standby state
⏯	Pause
AUTO	Automatic mode (21 default dynamic mode cycles)

❄ 💝 ⭐	

Note:Adjust the brightness, when the speed is large, the light flashes to indicate that it has been adjusted to the maximum or minimum state.

Operation manual of Magic Lantern APP:

1.1 Overview

The Magic Lantern is a mobile app that controls the LED lamp belt through apple or Android mobile phone.

The traditional control ways like infrared, 433MHz, 2.4GHz and others old wired ways will be replaced by mobile phone control way with convenient, powerful and scalable features.

Through the mobile app, you can easily and quickly control the color, brightness and color temperature of the LED light belt. You can also set various flashing modes, and make the LED light belt move with the music rhythm. Just keep the LED light band powered on, turn on the mobile phone Magic Lotus lamp app intelligent control software, connect one or more LED light band controllers through Bluetooth, so as to realize various settings and control of multiple LED light bands. Operation is very simple, easy to learn and use.

1.2 Features

- Adjust color LED strips with 60,000 colors to change color and brightness and adjust monochrome LED stips to change brightness and color temperature
- Play mobile music or turn on a sound playback device, you can let the light change the color and brightness with the rhythm of music, the music rhythm beautiful
- Inside multiple setting mode for color change and control LED strips without mobile
- Long distance control with omni-directional antenna, and many-to-many group control mode
- Quick and easy automatic connection

1.3 Performance

Magic Lantern APP has good ease of use and compatibility. The actual testing and verification of hundreds of mobile phones is compatible with the current market.

Most smartphones. APP is small and convenient, it consumes less system resources, so the requirements of the mobile configuration are low. Control delay is small, the operation feel good, light control is smooth with people's visual sense.

2. Operating Environment

This APP program requires phones of system above Andriod 4.3 and iOS 8.0 Mobile phone configuration is not limited.

3. Instructions

Note: Android version and iOS version download and use the same method, here in the Android version as an example.
