

HANGING NECK SPORTS HEADPHONES

5.3 Bluetooth Wireless

- Adjustable Ear Hanger
- External Speaker
- 5.3 Bluetooth Version

Product Description

Open Hanging Neck Sports headphones use directional sound transmission technology which is relative to the traditional in-ear headphones. This headset is a kind of hanging external, no isolation from the outside world can also enjoy the music feast, compared with the traditional one. It's more comfortable to wear and convenient to use. Release-binaural design also will not breed bacteria and it's more hygienic. Secure for outdoor use. Sports wear ear canal refreshing and breathable. Long-time Wear will not cause swelling.

External Speaker Function: You can adjust the angle of the enclosure to minimize hearing damage by selecting the external playback function while running or in private spaces. When you wear traditional in-ear headphones to listen to the song, the surrounding environment sound is very difficult to hear in outdoors. With this headphone, you can perceive the surrounding environment changes in the sound for safety.

Internal Play Function: When you don't want to hear ambient sound, you can adjust the angle of the housing to fit into the ear cavity. It has better sound quality effect, sound quality and privacy.

Internal and external speaker ear shell angle adjustment

Adjustment of the inward rotation by 5° to use the Internal Play Function: it can fit to the ear cavity better. Provides better sound quality and privacy.

Adjustment of the outward rotation by 15° to use External Speaker Function: With this function, you can perceive the surrounding environment changes in the sound for safety.

Earhook height adjustment

Original Height

Adjusted height

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

IC Warning

- English: This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device. The digital apparatus complies with Canadian CAN ICES-003 (B)/NMB-3(B).

- French: Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

L'appareil numérique est conforme à la canadienne CAN ICES-003 (B)/NMB-3(B).

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux radiofréquences. L'appareil peut être utilisé en condition d'exposition portable sans restriction.

This equipment should be installed and operated with minimum distance 0cm between the radiator & your body.

Cet équipement doit être installé et utilisé à une distance minimale de 0 cm entre le radiateur et votre corps.
