

(M080) T11 蓝牙自拍器操作说明 Bluetooth Remote Control Instruction

1、开机：把开关推到“ON”的位置，蓝牙自拍器通电。

Power on: Push the switch to the "ON" position to power on the Bluetooth Remote Control.

2、蓝牙自拍器通电后，LED 指示灯闪烁，蓝牙自拍器开始和手机配对。

The Bluetooth remote control enters pairing mode when it is turned on, indicated by a blinking LED light. It then searches for a compatible mobile phone to connect with.

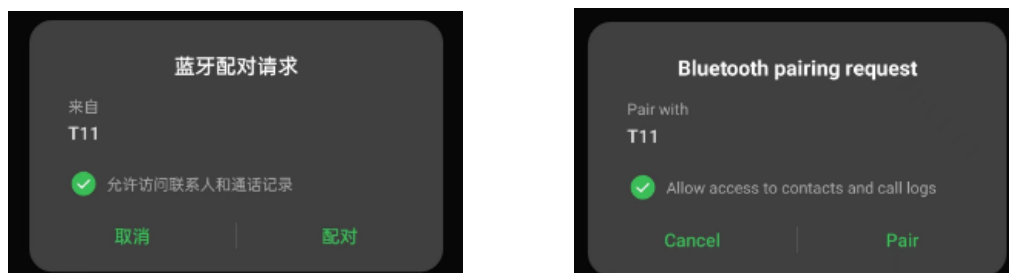

3、在手机蓝牙的页面下，“可用设备”处点击“T11”。

Open the Bluetooth page on your phone setting. Next, scan for nearby devices and find the available device named "T11". Then, select the device. Finally, wait for the pairing confirmation on your phone and the T11.

4、在“蓝牙配对请求”页面下点击“允许访问联系人和通话记录”，再点击“配对”。

To complete the Bluetooth pairing process, you need to grant access to your contacts and call history. This will allow you to make and receive calls using the Bluetooth device. To do this, go to the "Bluetooth Pairing Request" page and tap on "Allow access to contacts and call history". Then, tap on "Pair" to finish the pairing.

5、连接成功，“已配对设备”页面显示“T11 已连接”。

Connection successful, the "Paired Devices" page shows "T11 connected".

6、连接距离：10 米以内。

The device can operate effectively in a limited area. The maximum distance between the device and the receiver should not exceed 10 meters. Beyond this range, the signal quality may degrade or be lost.

7、蓝牙自拍器配对成功，按一下拍照按键，绿色指示灯闪一下，手机能拍照。

You have successfully connected the Bluetooth remote control. To capture photos with your phone, press the camera button. The green light will blink when the photo is taken.

8、把开关推到“OFF 档”，蓝牙自拍器断电。

Push the switch to "OFF" to turn it off

9、开机搜索 1.5 分钟左右，还不能和手机连接后，蓝牙自拍器进入休眠状态。

The Bluetooth remote control attempted to pair with the mobile phone for 90 seconds, but failed to establish a connection. As a result, the device entered sleep mode to conserve battery power.

10、蓝牙自拍器连接手机后 10 分钟内无操作，蓝牙自拍器与手机断开连接，进入休眠状态。

The Bluetooth remote control has a sleep mode to save battery power. When it is connected to a mobile phone, it will stay active for 10 minutes. After that, it will disconnect from the phone and go to sleep. To reconnect, press any button on the remote control.

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help. NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

The device has been evaluated to meet general RF exposure requirement, The device can be used in portable exposure condition without restriction.
