## About the Watch

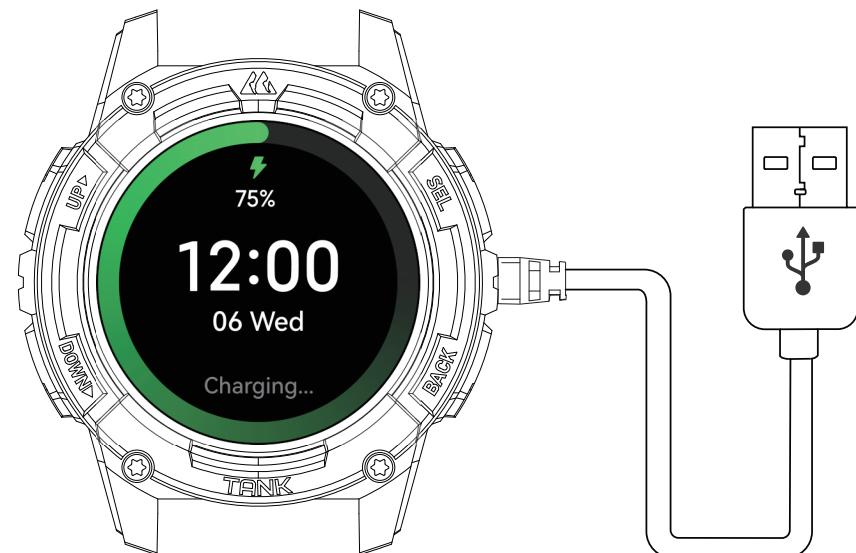

## Watch Charging

- Please fully charge the smartwatch before first use.
- Please plug the watch charger's USB connector into a power adapter or a computer's USB port.
- Place the watch onto the charger, keep it in a proper direction and position, and ensure that the metal contacts on the back of the watch are closely connected to the charger's base.

### Notes:

- Please use the KOSPET original magnetic charger to charge the watch, and make sure the charger is dry and without metallic foreign objects on it.
- Please use the power adapter with output current of 500mA or more, which is certified to meet safety standards.

## App Installation

Please download the KOSPET FIT App before using the smartwatch to access more sports and health data, personal settings and beyond, facilitating your journey towards a healthier, more active lifestyle.

Method one: Scan the QR code on the right to download and install the App.

App QR code

KOSPET FIT

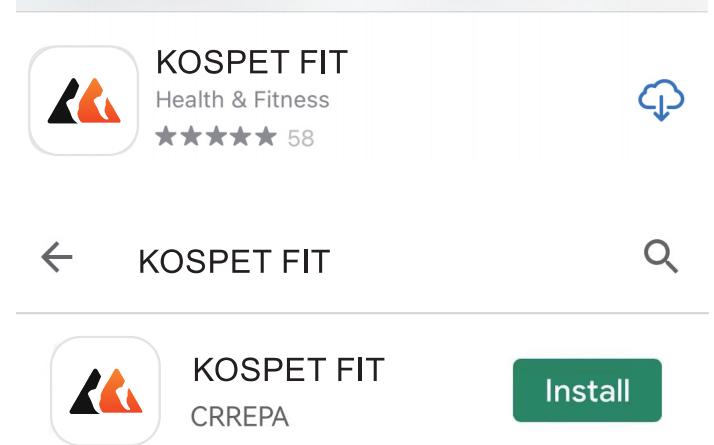

Method two: Enter “KOSPET FIT” on App Store or Google Play to download and install the App.

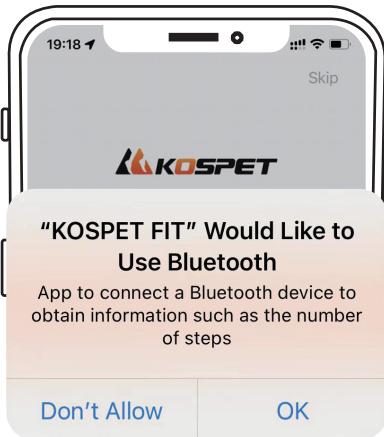

App Store

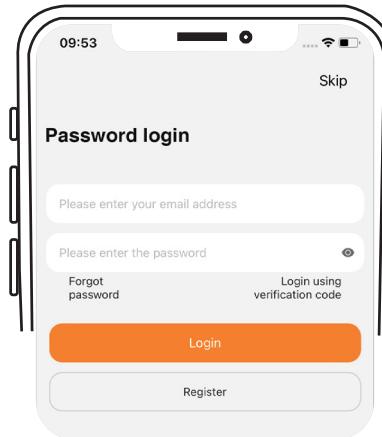

Google Play

## App Registration and Sign-in

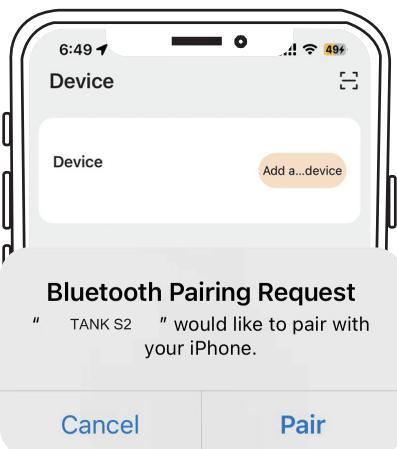

1. Open the App, allow it to access Bluetooth, location, and grant other necessary permissions on your phone.

2. Register and sign in to the App.

## Watch Pairing

1. Follow the prompts on the App to find and add the device (smartwatch).

2. Allow the watch to connect to the App on your smartwatch.

Note: Please don't pair the watch directly via your mobile phone's Bluetooth on Settings.

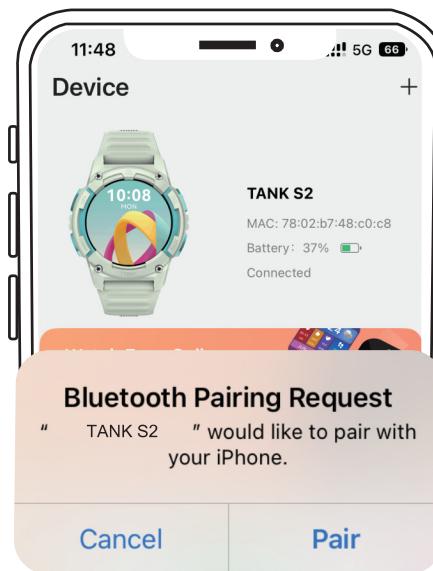

## Bluetooth Calling Setup

For iPhones:

Once the watch is connected to the App, tap the call icon on the watch to enable Bluetooth calling.

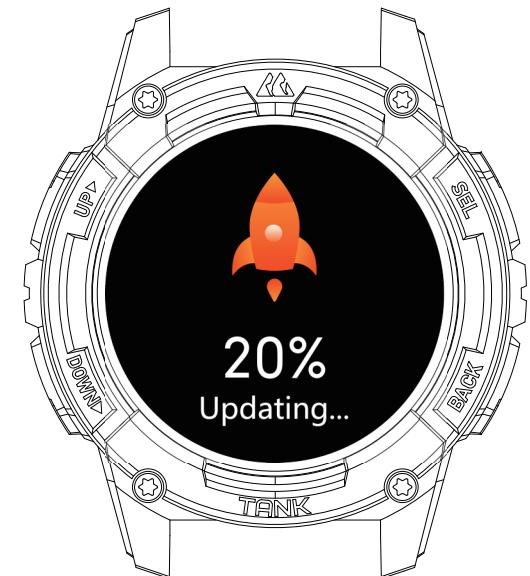

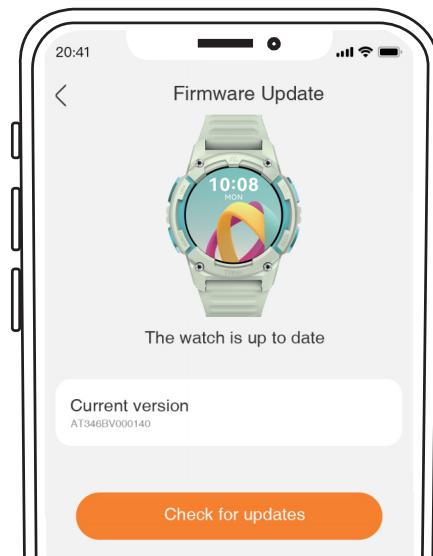

For Android Phones:

Once the App is connected to the watch, tap Pair on the App to enable Bluetooth calling.

## OTA Update

Enter the Device page on the App, then tap Firmware Update for the latest firmware version.

## Warranty Policy

KOSPET provides a two-year warranty on the products purchased through our official online store (<http://www.kospet.com>).

For more information, please visit: <https://kospet.com/pages/kospet-warranty-policy>.

For further questions, welcome to email us: [after-sales@kospet.com](mailto:after-sales@kospet.com), or call +1(507)668-8466, from Monday to Friday, from 08:00 a.m. EST to 05:00 p.m. EST.

## Security Tips

- Please do not expose the watch to extremely high-temperature environments or near high-temperature equipment, such as ovens, microwaves, or water heaters. High temperatures may cause battery explosions or other safety accidents.
- The watch contains an irremovable lithium-polymer battery. Non-professionals are prohibited from disassembling it to avoid potential safety hazards.
- This watch has passed multiple waterproof tests before leaving the factory. During daily use, wear and tear on internal components may affect its sealing performance. Please wear your watch carefully while swimming or diving, but avoid wearing it in saunas or during hot showers.
- This product is not a professional medical device. Heart rate, blood pressure, and other health-related data detected by the band are for reference only and cannot be used as clinical basis.

## **FCC Caution:**

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## **IMPORTANT NOTE:**

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This user manual is published by KOSPET that reserves the right of final interpretation. We may make adjustments to this manual anytime if necessary. Feature descriptions on the foregoing pages are provided for reference only.
