

#### FCC STATEMENT

This equipment has been tested and found to comply with the limits for a ClassB digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help. To assure continued compliance, any changes or modifications not expressly approved by the party.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and

This device must accept any interference received, including interference that may cause undesired operation.

#### FCC Radiation Exposure Statement:

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled environment. This equipment should beinstalled and operated with minimum distance 20cm between the radiator and your body

## Precautions

Please read all instructions and warnings before using this product. Improper use can damage the product.

1) Do not store this product under high temperature, strong light and strong magnetic environment. Do not place it in other harsh environments such as fire source or combustion or electrical shock.

2) When over-voltage, over-current, or over-temperature occurs during charging, the charger will automatically stop charging to avoid damage. When returning to the normal state, charging will continue.

3) Do not disassemble, repair or modify this device by yourself.

4) Do not touch the wireless fast charger with wet hands or immerse it in water or other liquids.

5) Do not use the wireless fast charger for products higher than the output range of this product to avoid electrical shock, burning or damage to the device.
