

SoRite-Solar Light-So Right

USER MANUAL

Product of a US -based Solar Energy Company
Assembled in China

PRODUCT DETAILS

Important safety instructions

Warning: When using this product, following precautions should always be followed:
 A. Carefully read the User Manual before using the power bank.
 B. Keep or use the power bank out the reach of children.
 C. Do not strike, hit or insert any foreign objects into the power bank or its ports.
 D. Do not expose the power bank to heavy rain/snow to avoid malfunction.
 E. Do not immerse the power bank into water to avoid malfunction.
 F. Do not disassemble or reassemble the power bank without authorization from the manufacturer.
 G. Do not use the power bank if it has been damaged or modified. If you see bulging, swelling, leakage or other abnormality from the power bank, stop using it immediately.

Special Attention

1. The suggested working/storage temperature is between -4° and + 140°F (-20°C +60°C)
2. Do not expose the power bank to fire or extreme high temperature. Exposure to fire or temperature above 176/80°C may cause battery swelling or explosion.
3. Do not leave the power bank on the car dashboard without supervision. The temperature inside a parked car can reach above 176°F/80°C in a hot day which may cause battery swelling or explosion.
4. Do not leave the power bank on the surface of concrete, metal and wooden floor while charging. Under strong sunlight, the surface temperature of concrete, metal and wooden floor may reach above 170 °/80°C, where the battery may swell or explode.

For solar panel charging, we recommend that you hang the power bank in a ventilated environment.

Instructions:

- 1.Turn on/Turn off:
Press the power switch to turn on the power bank, the LED indicator on. Without a device connected, the power bank will automatically turn off in 30 seconds.
- 2.Charge the power bank
Solar charging
Place the solar panel side facing to sunlight, the sunlight will be converted into electricity and stored in the power bank. The solar charging will be more effective under strong light. Please note that solar charging is designed for urgent support.
3. Charging cell phones and other devices
Charging with cable
lightly press the power switch to turn on the power bank, the LED power indicator lights up, connect the charging cable to your device.
4. Wireless Charging
Press the power switch and the green light of wireless charging on the back is on. Put the phone to the wireless charging area to charge the phone wirelessly. If you use the wireless charger to charge your phone, the phone case must not contain metal and the thickness of the case must not exceed 4mm.
5. Charging with built-in cable
Press the power switch to turn on the power bank, the LED power indicator lights up, take the cable out and plug it into the corresponding charging port to charge the device.
6. LED light
Press and hold the power button for 3 seconds to turn on the LED light, when the light is on, another press will change to SOS mode; another press will change to warning signal mode. One more press of the button to turn off the flashlight.

Product Parameters

Wireless Output	5W
OUT1: TYPE-C Output	DC5V/2A
OUT2: Micro USB Output	DC5V/2A
OUT3: USB Output	DC5V/2A
IN1: USB Input	DC5V/2A
IN2: Micro USB Input	DC5V/2A
TYPE-C: Type-C Input/Output	DC5V/3A
Capacity	10000mAh
Power of LED Light	1.2W
Solar Charging Input	5V/320mAh with 25000LUX light intensity

Legal and the Regulatory Compliance

All SoRite power banks have undergone extensive tests and the strict quality control procedures. Both our factory and products are tested and certified.

1. ISO 9001: Quality management system that demonstrate our capability to consistently provide products and services to meet customer needs and regulatory requirements.
2. UN38.3 Test Certificate: This ensures that the battery cell used in the power bank adheres to safety standards include but not limit to maximum continuous charge voltage, cut off voltage, nominal voltage, discharge etc.
3. MSDS Certificate: This is the Material Safety Data Sheet, all our power banks come with MSDS sheets, these sheets outline the hazardousness material with batteries, handling procedures, precaution etc.
4. UL2056 Test Certificate: A safety standards proves the products have been passed a series of professional evaluations by UL experts.
5. CE Certificate: All our power banks are certified with CE certificates ensuring to comply with regulations for sale in the market worldwide.

General maintenance:

To ensure the maximum efficiency of this product, please pay attention to the following:

- (1) Keep away from moisture and corrosive substances.
- (2) Do not use chemicals to clean the product.
- (3) When the product is not used for a long time, please charge it once every six months.

Other important notes:

- (1) This product is suitable for charging equipment within the specifications of DC5V/3A, if use the charging equipment beyond this specification may cause damage to the product.
- (2) Please do not disassemble or modify this product.
- (3) Please pay attention to fire and moisture, to prevent malfunction.
- (4) Do not use this product in the high temperature environment.
- (5) Please connect the equipment that meets the output specification of this product.
- (6) If the battery expands, leaks, or emits a strange smell, please stop using it immediately.

Product features:

- (1) Exclusive design makes this product beautiful, dustproof, waterproof, and shockproof.
- (2) Made of original A-grade Li-polymer battery, safe, stable, and durable.
- (3) Wireless charging, compatible with Qi standard mobile phones.
- (4) High-capacity portable power bank, support multiple USB ports output at the same time.
- (5) With large solar panels charging inputs, charging anytime, anywhere.
- (6) Equipped with LED lights and SOS mode, convenient for outdoor uses.
- (7) Built-in 3 kinds of output cables and an input cable, convenient for different kinds of device.

Warranties and after-sale services:

- (1) Every SoRite product is provided with 12 months of warranty and life-long technical support.
- (2) Within 30 days from the date of purchase, products in good packaging and without damage can be returned and fully refunded. Please note that customers will bear the shipping fee if products have no quality problems.
- (3) Free exchange for products having quality problems within 12 months.

If you are not 100% satisfied with our products, please feel free to contact our customer service.

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has evaluated to meet general RF exposure requirement. The device can be used in portable exposure without restriction.
