

This is a charging device providing USB ports and wireless charging for bluetooth earphones, cell phones and other devices. The details and working rates are shown below:

## 150W PD Charging Station

Model: PD150-CS3241

Input: AC 100-240V 50/60Hz 1.5A

Output (USB): DC 5V 2.4A(Max)

Output(TypeC): DC 5V-20V 3.25A(Max 65W)

**WirelessInput : DC 9V-12V**

**Output ( earphone ) : Max 5W 5V 1A**

**Output ( cell phone) : Max 15W 9V 1.65A**

## **FCC Warning Statement :**

**This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:**

- Reorient or relocate the receiving antenna.**
- Increase the separation between the equipment and receiver.**
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.**
- Consult the dealer or an experienced radio/TV technician for help.**

**This equipment must be installed and operated with a minimum distance of 15 cm between the radiator and user body.**
