

## SPECIFICATION

### LITHIUM-ION POLYMER POWER BANK

Size: 109mm X 68.56mm X 19.09mm  
 Capacity: 10000mAh/38.5Wh  
 Input (Type-C PD+QC) ⚡: 5V=3A, 9V=2A, 12V=1.5A  
 Output (Type-C PD+QC) ⚡: 5V=2.4A, 9V=2.22A, 12V=1.67A(20W)  
 Output (USB-A) ⚡: 5V=4.5A, 4.5V=5A, 9V=2A, 12V=1.5A(22.5W)  
 Wireless Output: 15W Max  
 Total Power: 22.5W Max

## INSTRUCTION MANUAL

## SPECIFICATION

## FUNCTION INTRODUCTION

- |                                 |                         |
|---------------------------------|-------------------------|
| ① PC isolation panel            | ⑦ 15W Wireless charging |
| ② Pure copper sensor            | ⑧ Press Switch          |
| ③ Magnet coil                   | ⑨ USB-C PD+QC in&out    |
| ④ Invisible stand               | ⑩ LED display           |
| ⑤ USB-A 2 22.W super charge     |                         |
| ⑥ Wireless coil-contacting area |                         |

## FUNCTION INTRODUCTION

1. Using wireless charging, place mobile devices(QI-compatible) right in the middle of the product, switch to connect successful mobile device(QI-compatible) will charge prompt.

2. When charging with the data USB interface, insert the USB into the wireless mobile power supply, and the other end of the power supply is connected to the mobile device for charging. This product has automatic start up function when inserted into the device.

## FUNCTION INTRODUCTION

3. **Charging for power bank:** Contained cable to connect AC adapter or USB-C port of computer can charge for this power bank.

4. **On/off Button:** press slightly to turn on.

## POWER DISPLAY

LED display power from 0% to 100%

## SAFETY INFORMATION

1. This power bank adapts high quality polymer battery and you can use it at ease.
2. Don't throw and separate it or impale the power bank by yourself; be sure not to expose the battery into fire, high temperature or water and so on; it's suggested that user should use power adapter which comes with phone or standard brand for it. If there are any ballooning, weeping, other improper phenomenon of power bank or the mobile device being charged, please stop using.
3. In the process of charging or discharging, the product has proper heating phenomenon; the heating temperature is below 40°C and without influencing products performance. User can use it at ease.
4. Please charge full electricity to it before first time to use; the product can achieve ideal state after 3 to 5 times of discharging circulation.

**WARNING** Please follow the above safety instructions otherwise it will cause fire, electric shock, damage or other accident.

## TIPS

1. Power bank capacity is not equivalent to the rechargeable amount due to the conversion efficiency of power bank.
2. Please charge your energy regularly ( at least once every 5 months is recommended ) to maintain its long service life.
3. Improper use of the product is likely to damage the product itself or may endanger personal and property safety.
4. If the consumer violates the product specification or warning and makes inappropriate use, the resulting personal and property loss should be taken by the consumer. Our company will not take any legal responsibility.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
