

## 1、Package content

- 1 × Product
- 1 × product manual
- 1 × Power cord
- 1 × Earphone
- 1 × product certification

## 2、Product information

Product Name: Rechargeable vibrating masturbator

Main material: ABS+TPE

Battery type: Rechargeable lithium battery

Charging time: About 120 minutes

Service time: About 50 minutes (fully charged)

Rated current:  $\leq 800\text{mA} \pm 10\%$

Rated voltage: 7.4V

Product weight: 909g

Power supply mode: USB Magnetic suction charging

Product color: White

Product specification: 88x88x294mm

## 3、Operation method

Normal mode

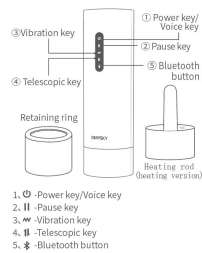

- 1、 Install the retaining ring at the cup mouth to prevent significant shaking of the product during use;
- 2、 Press and hold the power key for 2 seconds, and the white LED of the power key lights up. The product starts up and enters the static standby state by default. In the power-on state, short press the power button to turn on the sound function of the product, and short press the power button again to switch the sound mode of the product. This product has four different sound modes for cycle switching;
- 3、 Under power-on status, short press the vibration key to turn on the vibration function of and short press the vibration key again to switch the vibration frequency of the product. This product has 10 different vibration frequencies for cycle switching. Long press the vibration key for 2 seconds to turn off the vibration function of the product;
- 4、 In the power-on state, short press the telescopic key to turn on the telescopic function of the product, and short press the telescopic key again to switch the telescopic frequency of the product. This product has 10 different telescopic frequencies for cycle switching. Long press the telescopic key for 2 seconds to turn off the telescopic function of the product;
- 5、 Insert the Type-C interface of the power cord into the cup cover, and plug the USB end of the power cord into the USB charging plug (with a voltage of 5-5.5V and a current of 1-1.2A). Then insert the heating rod into the soft rubber tube, and the heating will automatically stop when it exceeds 30 minutes;
- 6、 Short press the pause key, the product will stop working, short press the pause key again, the product will resume working, when the pause time of the product reaches 5 minutes, it will automatically shut down. Press and hold the pause key for 2 seconds, and the product will directly turn on the strongest telescopic frequency and the strongest vibration frequency. Press and hold the pause key again for 2 seconds to turn off the strongest telescopic frequency and the strongest vibration frequency of the product.

Bluetooth profile

- 1、 When the product is working, press and hold the Bluetooth key for 2 seconds, and the product will stop working and enter the Bluetooth interactive mode. At this time, you can open the mobile phone Bluetooth, search and connect the device named "OMYSKY":
- 2、 After inserting the headset, when the phone plays (or has downloaded) audio or video online, the product will restore the sound being played by the phone, and the vibration frequency and expansion frequency of the product will match the volume and rhythm of the sound;
- 3、 In Bluetooth mode, when you use your mobile phone to talk with your friends, the product will restore your friends' voice, and the vibration frequency and scaling frequency of the product will match the volume and speaking speed of your friends' voice;
- 4、 Press and hold the Bluetooth key for 2 seconds to exit the Bluetooth mode. After use, press and hold the power key for 2 seconds, the LED of the product power key will go out, and the product will stop working. At this time, the product has been turned off.

#### 4、 Operation method

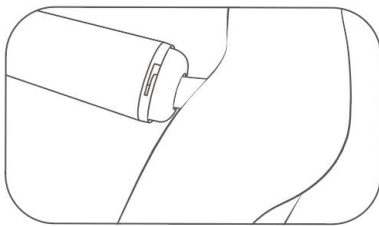

- 1、 Power key/Voice key
- 2、 Pause key
- 3、 Vibration key
- 4、 Telescopic key
- 5、 Bluetooth button

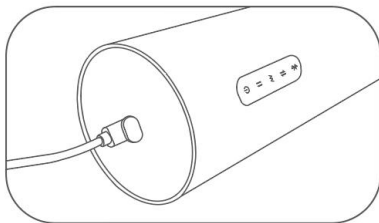

#### 5、 Charging method (charging products only)

- 1、 Take out the power cord, insert the Type-C charging head of the power cord into the Type-C interface at the bottom of the cup, and then connect the USB interface of the power cord with the USB charging plug (voltage is 5-5.5V, current is 1-1.2A);
- 2、 The charging time of the product is about 120 minutes, and it can be used for about 50 minutes after being fully charged.

**FCC Caution.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**\*RF warning for Portable device:**

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
