

LABELLING REQUIREMENTS

Labelling Requirements

Since the product size is too small, the certification number and model name are indicated on the packaging label. Additionally, the label information is placed in the manual.

§ 15.19 (a)(5) Labeling requirements:

When the device is so small or for such use that it is impracticable to label it with the statement specified under paragraph (a) of this section in a font that is four-point or larger, and the device does not have a display that can show electronic labeling, then the information required by this paragraph shall be placed in the user manual and must also either be placed on the device packaging or on a removable label attached to the device.
