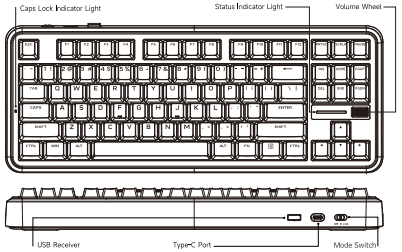
PRODUCT OVERVIEW

· PRODUCT OVERVIEW



●Indicators
Caps Lock indicator: Stays on when Caps Lock is enabled.
Win key indicator: Stays on when the Win key is locked, during which the Win key is disabled.

●Win/Mac System
FN+A = Windows mode, FN+S = Mac mode, where the Alt key functions as the Command key, and FN+F1–F12 are regular F1–F12 inputs.
In Windows mode, switching to Mac mode will swap the Win and Left Alt keys, and F1–F12 will function as multimedia keys.

CONNECTION MODE

2.4G Connection:
- Switch the mode toggle to **[2.4G]**
- Remove the receiver from the storage slot.
- Plug the receiver into the USB port of your computer.
- Manual pairing (factory default is already paired): Press and hold **FN + -** until the indicator light flashes rapidly, then plug the receiver into the computer's USB port. When connected successfully, the lighting will return to normal.

Wired Connection:
- Switch the mode toggle to **[OFF].**
- Plug the Type-C end of the cable into the keyboard's corresponding port.
- Plug the USB end of the cable into the corresponding port on your computer to start using the keyboard.

Wireless Connection:
- Switch the mode toggle to **[B]** mode.
- Press and hold **FN + 1!** to start pairing; the indicator light will flash rapidly during pairing.
- Press **FN + 1!**, **FN + 2@**, or **FN + 3#** to switch between devices.

DRIVER INTRODUCTION

Web Driver
https://www.mchose.store/pages/firmware-2
Open the URL in a browser, click on **[Open M HUB WEB]** > **[Initialize Device]** > **[Allow Browser Access]**, and then select the corresponding product model to connect.

Note: Click **"Enter M HUB WEB"**, then select **"Allow Browser Access"** when prompted.
Choose your product model from the list to connect.

Desktop App Driver
https://www.mchose.store/pages/firmware-2
Open the URL in a browser, click on Download M HUB Driver and then download and install it.

Note: The M HUB desktop app driver currently supports only Windows 10 and above; Windows 7 and macOS are not supported at this time.

Note

This device has been tested and complies with the limits for Class B digital devices under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in residential installations. This device generates, uses, and can radiate radio frequency energy, and if not installed and used under the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception (which can be determined by turning the device on and off), we encourage the user to try one or more of the following measures to correct the interference:

- Reorient or relocate the receiving antenna.
- Increase the distance between the device and receiver.
- Connect the device to a different circuit from the one to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the responsible party could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

Charging Instructions

1. It is recommended to charge the keyboard only via a computer USB port.
2. Avoid using substandard or non-compliant power adapters to charge the keyboard.
3. Avoid using over-voltage or over-current power adapters for charging.
4. Keep the keyboard away from high-temperature devices while charging.
5. Please turn off the power switch if the device will not be used for an extended period.

These charging instructions also apply to other rechargeable devices (keyboard /mouse / headphones / speakers, etc.).
