If you have any questions or concerns during use, please do not hesitate to contact us via our brand email: [support@annaror.net](mailto:support@annaror.net). Our customer service team will be happy to assist you in a timely manner.

Take full control of your ceiling light with our product that seamlessly integrates with app and remote control. With 7-color RGB options and adjustable color temperature, create the perfect ambiance for any occasion.

## SPECIFICATION:

Model	LS-CL-I3-24W-Dim-APPWYRGB
Size	32*2.5CM / 126*0.98 inch
Power	24 Watts
Voltage	AC 120V
Luminous flux	2400 Lumen
Color temperature	3000K~6500K
Color rendering index	90
RGB	7-color RGB & RGB cycle mode
APP	Tuya / Smart Life
Material	PC
Waterproof	IP40
Remote control frequency	2.4G
Remote control distance	10M
Lifetime	30000H

## OVERVIEW OF ANNAROR SMART CEILING LIGHT

1. Compatible with Google Home and Alexa, supports voice control.
2. Choose from 16 million colors to make your life more colorful. Brightness & color temperature are adjustable (adjustable between 3000K~6500K), and colors can be DIY.
3. Easily create different lighting atmospheres for different scenes.
4. Music mode (colors change continuously while music is playing).
5. Timer control through an app (Timer does not have memory function; the light will turn off when the time is up, and users need to set the timer again for future use).

1. Battery not included.  
2. Not suitable for use with dimmer switches.  
3. Remote control distance is within 10 meters.

## 2.4G REMOTE CONTROL INSTRUCTION

- ① ON
- ② OFF
- ③ Stepless dim up to 100% brightness
- ④ Stepless dim down to 10% brightness with seamless adjustment
- ⑤ Adjust color temperature down to 3000K
- ⑥ Adjust color temperature up to 6500K
- ⑦ Signal button: Long press for 3-5 seconds to make the light flash 10 times quickly to enter WiFi connection mode; short press to activate night light mode (3000K, 10% brightness)
- ⑧ 7 RGB Colors
- ⑨ RGB cycle mode (fast/slow)
- ⑩ Different color temperatures (3000K/4000K/6500K)
- ⑪ Warm white: 3000K
- ⑫ Cool white: 6500K

## REMOTE CONTROL PAIRING

### Steps to pair:

1. Power off for 10-20 seconds.
2. Power ON again.
3. Long press the "ON" button for 5 seconds to match the code, the light flashes once and the pairing is successful.

### Steps to cancel the pairing:

## MADE IN CHINA

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.
