Quick Start Guide
Smart Camera

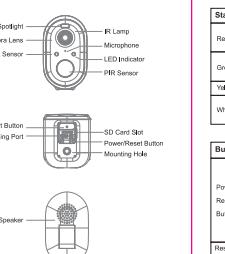

* Note: This Quick Start Guide applies to the above two products with different housings.

* Only suitable for DNU with solar panel

Packing List

- Smart Camera
- USB-C Charging Cable
- Mounting Bracket
- Screws and Anchors
- Mounting Template
- Pin (used for reset)
- Quick Start Guide
- Solar Panel

Product Description

Product Description

Status Indicator	
Red	Blinks Ready to set up
Red	Solid Abnormal boot
Green	Blinks WiFi connecting
Green	Solid WiFi connection successful
Yellow	Blinks Upgrading firmware
Yellow	Solid Charging
White	Blinks Abnormal charging

Charging	
It is recommended to fully charge before use.	
USB-C Charging Cable → Connect to the charging port of the camera → Connect to power adapter → DC5V	

Charging status LED indicator	
White	Charging
White	Solid
White	Full charged
White	Abnormal charging

Button

Power on	Press and hold the button for 2-3 seconds
Power off	Quickly press 3 times within 2 seconds
Reset	Press and hold the button for 5 seconds
Wake up	Short press the button (in sleep state or in the state of how battery shutdown)
Restart	Insert the pin into the hole, press and hold for more than 5 seconds and release

Note: Please close the cover after charging.

Charging

It is recommended to fully charge before use.

USB-C Charging Cable → Connect to the charging port of the camera → Connect to power adapter → DC5V

Get the Smart Life App

Download the Smart Life App from App Store or Google Play. Or scan the QR code as below with your smartphone.

Add Camera

Note:

- Make sure your smartphone is connected to a 2.4GHz WiFi network.
- Please click the '+' icon or 'Add Device' button on the home page (Figure 2), the camera will appear at the top of the page, then click the 'Add' button next to the camera (Figure 3).

Get ready to set up

- Power on or reset the camera to get it into the ready-to-setup state.
- When the camera enters the ready-to-setup state, the indicator light will blink in red and play a prompt.

Note: If the indicator light does not blink in red, press and hold the power button for 5 seconds to reset the camera.

2. Add camera to App

Note: Make sure you have turned on your smartphone's bluetooth and granted the corresponding permissions to the Smart Life App.

Get ready to set up

1. Make sure your smartphone is connected to a 2.4GHz WiFi network.

2. Please keep the camera close to the WiFi router during the adding process.

1. Get ready to set up

- Power on or reset the camera to get it into the ready-to-setup state.
- When the camera enters the ready-to-setup state, the indicator light will blink in red and play a prompt.

Note: If the indicator light does not blink in red, press and hold the power button for 5 seconds to reset the camera.

2. Add camera to App

Note: Make sure you have turned on your smartphone's bluetooth and granted the corresponding permissions to the Smart Life App.

Add camera

Method 2: Add camera via QR code

- Click the '+' icon or 'Add Device' button on the home page (Figure 1).
- Select 'Smart Camera (WIFI)' (Figure 2).
- Enter WiFi password and click 'Next' (Figure 4). **Note:** The camera only supports 2.4GHz WiFi.
- Scan the QR code with camera, then click 'I heard a prompt' button (Figure 5).
- Wait for the adding process to complete automatically and then click 'Done' button (Figure 6).

Installing Camera

- Select the installation location. The recommended installation location height is 2.2m.
- According to the installation template, drill holes with a 15/64" (6 mm) ØHSS, then insert the anchor into the holes and screw the mounting bracket to the wall. For soft surfaces such as wood, you don't need to pre-drill holes and you can just directly use the screw to fix the bracket (Figure 1).
- Install the camera on the mounting bracket and adjust the camera angle (Figure 2).
- Tighten the adjustment knobs to lock the camera (Figure 3).

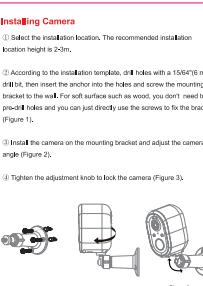

Figure 1
Figure 2
Figure 3

Installing Solar Panel

Note: The solar panel uses the same mounting bracket as the camera.

Tip:

- Find the area that gets the most direct sunlight throughout the day. Angle the solar panel up to 30°. Point it south in the northern hemisphere and north in the southern hemisphere.
- Periodically wipe the surface of the solar panel with a soft, damp cloth to remove dust or debris.

Installation

- Choose a suitable installation location, fix the mounting bracket, and install the solar panel on the bracket (Figure 1).
- Adjust the angle of the solar panel to the connection port, then tighten the adjustment knob to lock the solar panel (Figure 2).
- Open the silicone cover of the charging port at the bottom of the camera (Figure 3), and then insert the Type-C charging head of the solar panel to complete the connection (Figure 4).

Technical Specifications

Operating temperature: -20° ~ 50°, Operating humidity: 10%~95%. No condensation. Storage temperature: -40° ~ 60°. Frequency Range: 2.412~2.472GHz (EU), RF Max Power: ≤ 20dBm. Power: General 0V Direct Current 1.0A-Max. symbol → means direct current.

warning

Federal Communications Commission (FCC) Declaration of Conformity

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operations is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and stores radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Note: The solar panels operate at ambient temperatures from 0°C(32°F) to 45°C(113°F) and will charge the camera at temperatures below 0°C(32°F) and above 45°C(113°F). In this case, please place the camera indoors and charge it with a 5V power adapter.

English Warning Statement:

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this equipment may not cause interference; and (2) this equipment must accept any interference, including interference that may be caused unintentionally by the device.

French Warning Statement:

Cet appareil est conforme aux normes RSS d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) cet appareil ne doit pas causer d'interférences; et (2) cet appareil doit accepter toute interférence, y compris celles qui peuvent être causées intentionnellement ou non par cet appareil.

Radiation Exposure Statement:

This equipment complies with the exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Cet appareil est conforme aux normes d'exposition aux rayonnements de l'Industrie Canada pour un environnement non contrôlé. L'équipement doit être installé et utilisé avec une distance minimale de 20cm entre le radiateur et votre corps.

CE  **Hersteller:** Zhongshan Linghu Technology Co., Ltd. **Declaratior:** This product is in conformance with essential requirements and other relevant provisions of Directive 2014/35/EU.2011/65/EU.

WEEE: This product must not be disposed of as normal household waste, in accordance with EU directive for waste electrical and electronic equipment (WEEE-2012/19/EU). Instead, it should be disposed of by returning it to the point of sale, or to a municipal recycling collection point.

RoHS: The device complies with the RoHS Directive 2011/65/EU.
