How To Connect To Wifi Network

Get Ready

- Know your WiFi network and password
- Make sure your mobile device is running iOS8 11 or higher or Android™ 6.0 or higher
- Make sure you're connecting to a 2.4GHz WiFi network (It can't connect to 5GHz networks)

1 Download the Smart Life app from App Store or Google Play.

2 Register an account on your Smart Life app

STEP 1. Enter your mobile phone number or email address.

STEP 2. Enter the verification code and create a password.

3 Add device

Make sure your hummingbird feeder has sufficient battery power, turn on the hummingbird feeder and press the red button for 5 seconds. When the camera plays "Please connect to the wifi router" and the red light flashes quickly, the hummingbird feeder enters the network configuration state.

* Turn on the WiFi and Bluetooth of your phone and allow permission for "Smart Life". Then open the "Smart Life APP". The first time you use this APP, you need to register an account.

1. when you enter the APP, the hummingbird feeder will automatically pop up to add. If not pop up, you can tap "Add Device" the hummingbird feeder will be displayed at the top of the interface.

2 Tap "+" to add the hummingbird feeder.

3 Enter the password of your WiFi (hummingbird feeder only supports 2.4GHz WiFi). Click "Next".

4 Adding device wait for the hummingbird feeder to be added. Click "Next".

5 Click "Done".

Power on
Press and hold for 3s
Power off
Press and hold for 3s

Step6:
Plug the solar charging cable into the charging part of the hummingbird feeder.

Frequently Asked Questions

1 Can I share with family and friends?

You can share your camera with family and friends who will have access to view the camera and control your baby, dogs, and other animals. In the app, press the Profile button and click on the "Home Management" button, and you will be able to give or revoke sharing permissions. In order to share, the other user should already have downloaded the app and registered a new account.

2 What's the Wireless Range?

The range of your home WiFi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.

3 How many cameras can I install?

Smart Life app can control an unlimited amount of devices in an unlimited amount of locations. Your router may have a limit of how many devices can be connected to one router.

4 My device can't be connected to network with App

- Make sure the device is under the cordly status (indicator light is flashing quickly)
- Make sure the WiFi is available and not too far away from router
- Make sure the WiFi password you input is correct

5 My device shows offline in my App

- Make sure the device is powered on
- Make sure the network is stable and the WiFi name and password not modified. If not, add device again.
- If the network is normal, it is still offline. Check if there are too many WiFi connections. You can install your router to check the status of the device.

Technical Specifications

- Operating temperature: 20°C - 60°C, Operating humidity: 10%-90% (No condensation)
- Notes:
 - The maximum normal ambient operating temperature is 60°C when the battery is charging. The maximum battery operating temperature is 60°C.
 - Frequency Range: 2.412-2.472GHz (EU),
 - Power: Forward 5V Direct Current (USA), symbol: 222, means direct current

warning

Federal Communications Commission (FCC) Declaration of Conformity (FCC) Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Never use the appliance and is battery in extreme conditions (high or low extreme temperatures, high altitude, ...), during use, storage or transportation.

Warning: Batteries should not be exposed to excessive heat such as sunshine, fire or the like.

Never damage the appliance and its battery.

Never short circuit the battery.

Declaration Of Conformity European Notice

CE
Hemity, Knight Longhu Technology CO., Ltd., declares that this product is in compliance with essential requirements and other relevant provisions of Directive 2014/53/EU, 2011/65/EU.

This product must not be disposed of as normal household waste, in accordance with EU directive for waste electrical and electronic equipment (WEEE-2012/19/EU). Instead, it should be disposed of by returning it to the point of sale, or to a municipal recycling collection point.

The device could be used with a separation distance of 20cm to the human body.

English Warning Statement:

This device complies with Industry Canada license-exempt RSS (standards). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

French Warning Statement:

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) L'appareil ne doit pas produire de brouillage, et (2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radiation Exposure Statement:

This equipment complies with Canadian RF exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
