

Statement

We, **NETPRISMA INC.**, declares the following models.

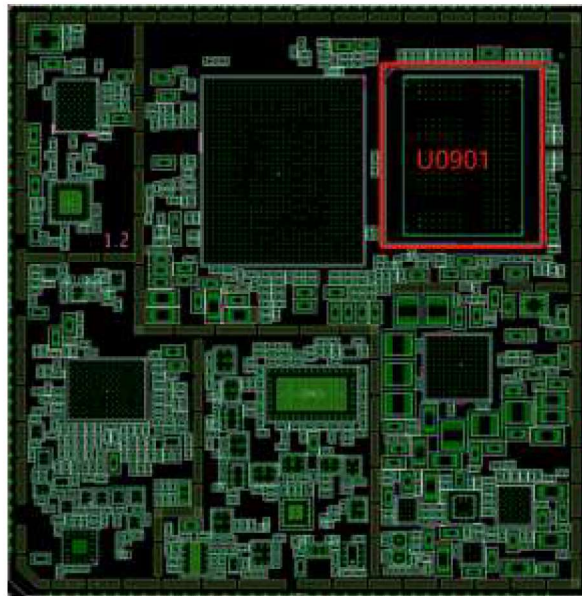

Module Series: Smart LTE Module with Wi-Fi & Bluetooth

Model Name: SUS600-LD, SUS609-LD

Hardware Version: R1.0

SUS600-LD and SUS609-LD both use Qualcomm QCM6125 chipset and share the same HW design, they just have different OS and use different EMCP as following:

- **PCB Layout**

- **Difference Table**

Designator	SUS600-LD (Part Description)	SUS609-LD (Part Description)
System	Android	Linux
U0901(EMCP)	BWCA2KZC-64G	NE6F8FKAPAXAI-KF

Above changes won't impact the protocol and RF performance.

Your assistance on this matter is highly appreciated.
