

1. Annex G - (Normative) - EUT Internal Photographs

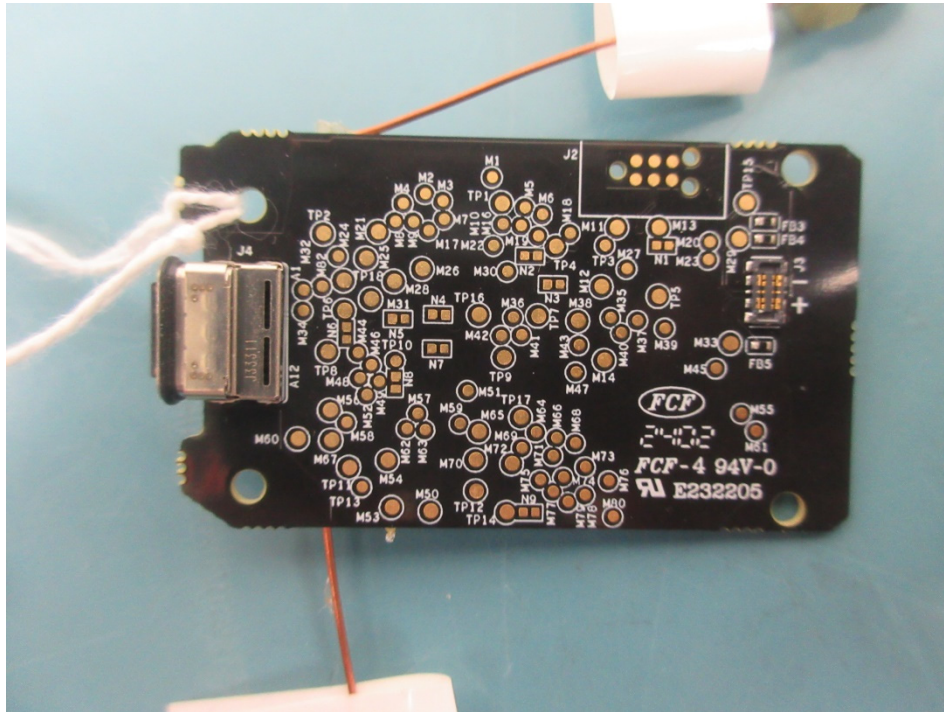

1.1 EUT – Top View with conducted cables for testing

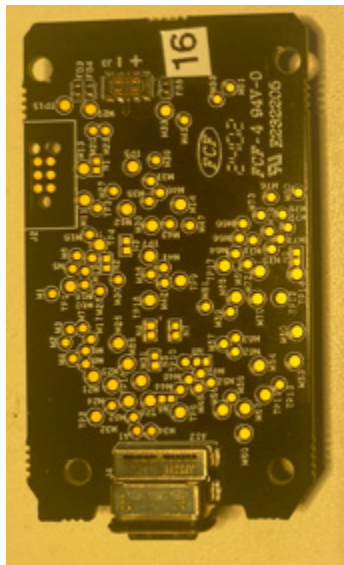

1.2 EUT – Top View

1.3 EUT – Bottom View with conducted cables for testing

1.4 EUT – Bottom View

The image displays three components of the HP iPAQ 1900, laid out horizontally. From left to right: the back cover, the internal circuit board, and the front cover. The back cover is a dark grey plastic shell with a yellow adhesive strip at the bottom. The circuit board is a complex black PCB with various electronic components, including a large silver heat sink and a small white label. The front cover is a dark grey plastic shell with a yellow adhesive strip at the bottom.
