

Picoo One FCC ID technical drawing

All dimensions in this document are in millimeters.

The FCC ID on the Picoo One will be marked in one of two ways: either via a label or molded into the bottom cap.

The label is placed on the bottom of the controller, behind the silicone protection cap.

Label font size: 4pt.

Label material: ORAFOL ORACAL® 820 Safety Vinyl

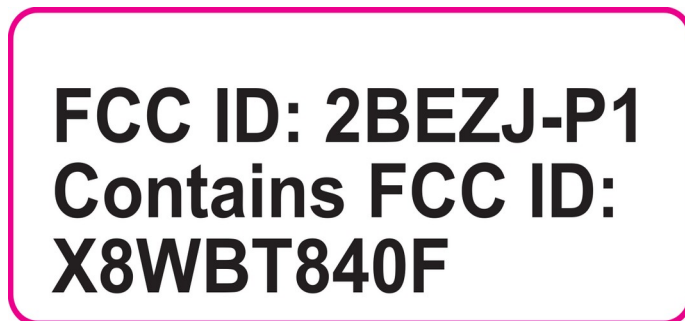

Figure 1: Label contents (not to scale)

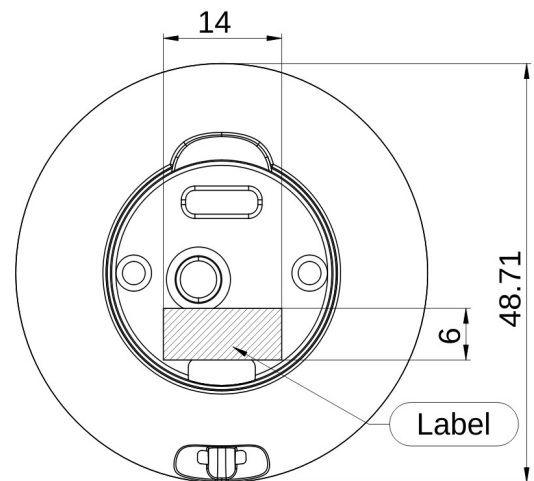

Figure 2: Label position and size

When molded the FCC ID will be placed on the bottom cap, outside the silicone protection cap. Note this is just a proposal. The exact position may change.

Mold font size: 6pt.
