

Annex B. EUT Internal Photos

EUT Internal View 1

EUT Internal View 2

A circular white printed circuit board (PCB) is shown, populated with various electronic components. The board is placed on a blue textured surface next to a ruler for scale. The ruler indicates the board's diameter is approximately 4.5 cm. The components include several resistors (labeled R1 through R10), capacitors (labeled C1 through C5), and integrated circuits (labeled U1 through U5). A large black component, likely a microcontroller or memory chip, is visible in the center. The board is labeled "JY-L21965V2" at the top.

A circular metallic object, possibly a coin or a small disk, is shown on a blue textured background. The object has a brushed metal finish and a small rectangular feature with two small holes in the center. A ruler is placed to the left of the object, showing measurements in inches (0 to 5) and centimeters (0 to 8). The object's diameter is approximately 4.5 cm.
