## ▲ SAFETY INFORMATION

**If you have any questions, please contact us through Amazon,  
We will solve the problem within 24 hours.**

## ASSEMBLY INSTRUCTIONS

1. Install batteries, matching polarity, into each puck.

4. By pressing the lamp body center, you can turn off the lamp manually, turn on the lamp and adjust the color of the lamp.

2. Assemble the puck by aligning the covers then rotating to secure.

5. To replace remote control's battery follow directions on back of remote control to slide battery drawer out. Replace battery (+side up) and slide battery drawer back in.

3. Easily screw into any kind of light fixture that needs E26 bulb

## SAFETY INFORMATION

Before beginning installation of product, make sure all parts are present. Compare parts with package contents list and hardware contents list. If any part is missing or damaged, do not attempt to assemble, install or operate the product.

**FCC Warning**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
