FAQ

My device isn't charging. What is the problem?
• Make sure power is on, and the power bank is charged.
• Make sure you've placed it in the proper position.
• Make sure your device is compatible with the power bank.

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

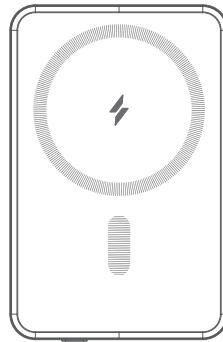

The device has evaluated to meet general RF exposure requirement. The device can be used in portable exposure without restriction.

Please read this instructions completely and keep it property
Warning Please follow the above safety instructions otherwise it will cause fire, electric shock, damage and other damage

USER MANUAL

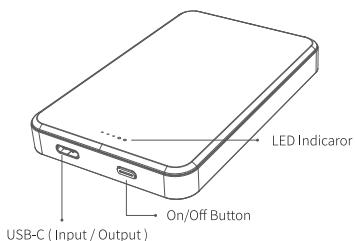

10000mAh Magnetic Wireless Charging Power Bank

Specifications

Description	Magnetic Power Bank
Battery Capacity	10000mAh(3.85V/38.5Wh)
Input Power	USB-C: 5V/3A 9V/2.22A
Output Power	Wireless: 5W / 7.5W / 10W / 15W (iPhone support 7.5W) USB-C: 5V/3A 9V/2.22A 12V/1.5A Wireless+USB-C: 5V/3A (15W max)
Operating Temperature	0-45°C
Size	105 x 66 x14.4 mm
Weight	184g

Product introduction

LED Indicator Introduction

White lights indicate how much juice is left in your battery pack. If there are four white lights showing, you're fully charged. Three indicates a 75% charge, two for 50% and one for 25%.

Nivel de energía	100%	75%~50%	50%~25%	25%~0%
	○○○○●	●○○○●	●●○○●	●●●●●

Protective Function

- Multiple circuit protection
- Over-voltage protection
- Over-current protection
- Flame retardant protection
- Short-circuit protection
- Over-heat protection

SAFETY

- If you're not using your power bank often, please charge fully at least every three months.
- A small amount of heat production is normal. Please be aware of optimal placement of the power bank, as incorrect placement on your phone can produce more heat.
- Keep device dry and do not clean with chemical agents.
- If you are disposing of this power bank, please recycle at your nearest battery recycling station.
- Usage by children should be supervised by adults.
- Do not crush, disassemble or otherwise destroy this device.
- Do not store in hot, humid conditions.
- Make sure your device is compatible with your power bank before using.
