Product Specification

Model No	X6
Product material	ABS+PC+PCBA
Input interface	Type-C
Input	PD/QC3.0/9V-3A/12V-2.5A
USB output	5V-3A
Phone wireless output	5W/7.5W/10W/15W
Watch wireless output	3W
Earphone wireless output	5W
Conversion efficiency	<80%
Transmission distance	<5mm
Product Size	3.62*3.62*5.7in
Product Weight	0.65LB

Safety Tips

Please read the instructions carefully before using the product, so that it can be used correctly and stored properly.

- Do not disassemble the product or change the actual use of the product without authorization.
- Keep away from water or other liquids which may lead to short circuit when using the products.
- Do not use the product near the fire source or under sunlight.
- For safety, please place the product away from children.
- Please do not place magnetic cards, magnetic stripe media, and precision machinery too close to the device. Not for the Ottetbox Commuter case

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
