

Radio frequency radiation exposure evaluation: portable devices

RESULT :

Pass

Test Specification

Test item	: Remote control
FCC ID	: 2BF7B-74HK
Test standard	: CFR47 FCC Part 2: Section 2.1093 FCC KDB Publication 447498 D04

Measurement Record:

E.I.R.P = 72.02 - 95.2 = -23.18dBm

Since maximum peak output power of the transmitter is -23.18dBm \approx 0.005mW < 3 mW.

Hence the EUT is excluded from SAR evaluation according to FCC KDB Publication 447498 D04
