

## Remote Control User Manual

### Product Information

Product Name: Remote Control

Model: TPPER6005PL\_001

Frequency: 433.05 - 434.79MHz

### Introduction

Thank you for purchasing our 433MHz Remote Control. This device is designed for [specify the intended use, e.g., home automation, garage door opener, etc.]. Please read this manual carefully before use to ensure proper operation.

### Safety Precautions

Do not disassemble or modify the remote control.

Keep the remote control away from moisture, heat, and direct sunlight.

Use only the recommended batteries.

Dispose of batteries properly according to local regulations.

### Using the Remote Control

#### Inserting Batteries:

Open the battery compartment.

Insert a 27A 12V battery, ensuring the correct polarity.

Close the battery compartment securely.

#### Pairing with Receiver:

Refer to the user manual of the receiver device for pairing instructions.

Typically, press and hold a specific button on the remote control while following the instructions on the receiver device.

#### Operating the Remote Control:

Each button corresponds to a specific function. Refer to the button layout diagram for details.

Press the desired button to control the connected device.

### Troubleshooting

If the remote control does not respond, check the batteries and ensure they are inserted correctly.

If the remote control still does not work, try re-pairing it with the receiver device.

If issues persist, contact our customer support for assistance.

## **FCC Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **FCC RF Radiation Exposure Statement**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
