|                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>Solder<br/>Board-Component<br/>View 2</b></p> |  A photograph of a green printed circuit board (PCB) with various electronic components, including a large black integrated circuit (IC) in the center, several capacitors, and a small circular component on the right. The board is positioned next to a metal ruler for scale. The ruler has markings in centimeters (0 to 20) and millimeters (0.5 mm). The background is a blue textured surface. |
| <p><b>Solder<br/>Board-Component<br/>View 3</b></p> |  A photograph of the same green PCB from a different angle, showing the underside or a different side. It features gold-colored pads and various components. A metal ruler is placed next to it for scale, with markings in centimeters (0 to 20) and millimeters (0.5 mm). The background is a blue textured surface.                                                                                |

|                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <p>Solder<br/>Board-Component<br/>View 4</p> |  A photograph of a small electronic component, identified as a solder board-component, placed on a blue textured surface. The component is a rectangular gold-colored PCB with three circular solder pads. It is positioned next to a vertical ruler on the left and a horizontal ruler below it, both marked in millimeters. The component's length is approximately 10 mm and its width is about 5 mm. Text on the component includes "D156 KEY-FC-V02", "PM2", "VAL", and "1014". |
| <p>Solder<br/>Board-Component<br/>View 5</p> |  A photograph of the same solder board-component from a different perspective, showing its underside. The component is a rectangular gold-colored PCB with three circular solder pads. It is positioned next to a vertical ruler on the left and a horizontal ruler below it, both marked in millimeters. The component's length is approximately 10 mm and its width is about 5 mm.                                                                                                |
