Pairing and connecting with a mobile phone

1. Turn on the Bluetooth headset, and when the red and blue lights flash, turn on the Bluetooth setting function of the mobile phone and search for Bluetooth devices.
2. Find the device name L60 in the mobile phone Bluetooth search list, click to pair, and there will be a voice prompt "Connected"

Answering and hanging up

1. Answering a call: When a call comes in, short press the multi-function button once to answer
2. Hanging up: When making an outgoing call or talking on the phone, short press the multi-function button once to hang up

Play Pause

1. Play Pause: When playing music, short press the multi-function button once to pause the playback.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
