### Regulatory Certification

Product Name	D10 Rugged Tablet
Model	D10
FCC ID	FCC ID:2BFBH-D10 FCC

# FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.  
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Specific Absorption Rate (SAR) information:  
This D10 Rugged Tablet meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

- This radio is designed for and classified as "General population/uncontrolled Use" , the guidelines are based on
- standards that were developed by independent scientific organizations through periodic and thorough evaluation of
- scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons
- regardless of age or health.The exposure standard for wireless radio employs a unit of measurement known as the
- Specific Absorption Rate, or SAR, the SAR limit set 1.6W/kg.
- Body-worn operation; this device was tested for typical body-worn operations with the back of the handset kept
- 10mm for body worn. To maintain compliance with RF exposure requirements, use accessories that maintain a 10mm
- for body worn. The use of belt clips, holsters and similar accessories should not contain metallic components in its
- assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure
- requirements, and should be avoided.
- The highest reported SAR value for worn on the body is 0.657W/kg, The highest Simultaneous reported SAR value for worn on the body is 1.065W/kg.

# Caution

Please ensure that the **waterproof plug** is tightly plugged.

# Notice

1. Some special places, such as airports, hospitals, gas stations and other places, do not allow the use of electronic equipment. Please comply with the rules and do not use this product in these places.
2. For your safety and the safety of others, please do not use this product while driving a vehicle.
3. In order to avoid potential safety problems, do not put this product near the vehicle's airbag.
4. For your safety, please do not use this product during thunderstorms.
5. Although this product is waterproof, do not leave this product for long periods of time in areas with water or moisture.
6. This product has an operating temperature range of -20℃~+65℃ and a storage temperature range of -30℃~+70℃. Extreme temperatures can affect the device's performance and service life.
7. The output power is 1 milliwatt to 5 milliwatts , Avoid direct eye contact with visible laser radiation.
8. Although the product has been tested to withstand harsh operating environments, do use the product in an improper manner.
9. Please do not disassemble this product. In case of failure, please send them to our authorized service centers to proceed with repairs.
- 10.After the device has reached the end of its service life, please discard it in a proper way to avoid environmental pollution.
- 11.This product is a Class B product, which may cause radio interference. The user may be required to take necessary preventive measures.

# Install RTK Backpack

- Assemble the screw in the screw hole(Pay attention to the screw direction).
- Install the backpack on the controller.

# Note

RTK backpack is not standard accessories.

Users can purchase optional accessories separately.
