

UNPACK CONTENTS

Remove the smartwatch and charging cable from its packaging.

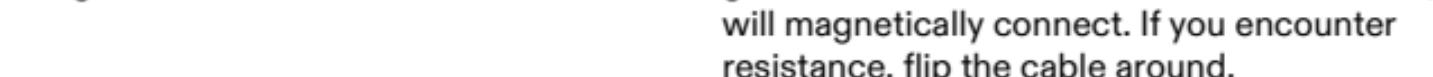

Charge the smartwatch for at least 2 hours before use.

Note: Charging may take up to 2 hours.

FULLY CHARGE THE SMARTWATCH

Before initiating the setup process, ensure that your smartwatch is fully charged.

Once fully charged, the smartwatch screen will display "charging."

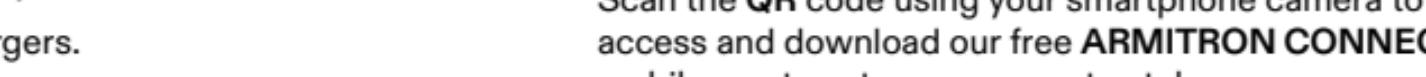

Note: Charging may take up to 2 hours.

Note: Charging may take up to 2 hours.

CHARGING THE SMARTWATCH

Align the gold pins on the charging cable with the gold contacts on the back of the smartwatch; they will magnetically connect. If you encounter resistance, flip the cable around.

The magnetic charging cable will effortlessly latch into place.

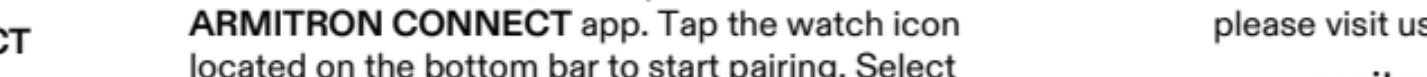

Note: Activating Bluetooth on your phone, and only pair your watch using the mobile app.

PAIRING YOUR SMARTWATCH (CONT.)

THE ARMITRON CONNECT APP

Plug the charging cable into a UL-certified wall charger or a computer USB port.

FCC REGULATORY COMPLIANCE

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee

FCC REGULATORY COMPLIANCE

that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC REGULATORY COMPLIANCE

This equipment complies with the FCC's RF radiation exposure limits for an uncontrolled environment. The end user must follow the specific operating instructions to satisfy RF exposure compliance. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

LIABILITY

Operating temperature: 4° to 122° F

Non-operating temperature: -4° F to 140° F

Product: Armitron Connect (Floral) Smartwatch

Meant for medical use, including diagnosing, treating, mitigating, or preventing diseases or conditions, or for any other medical purpose.

Disposal of the packaging & your Armitron Connect product should be done in accordance with local regulations. Batteries are not to be disposed of in municipal waste & require separate collection.

DISPOSAL OF GOODS

Electrical products, batteries & accumulators should not be disposed of in the household waste.

If you cannot reuse or recycle your article, it should be disposed of at a civic amenity site or a local authority recycling facility. Do not dispose of your Armitron Connect product with household waste. Disposal of the packaging & your Armitron Connect product should be done in accordance with local regulations. Batteries are not to be disposed of in municipal waste & require separate collection.

FC ID: 2BCCD42104FLR
