## How to Use your Lamp?

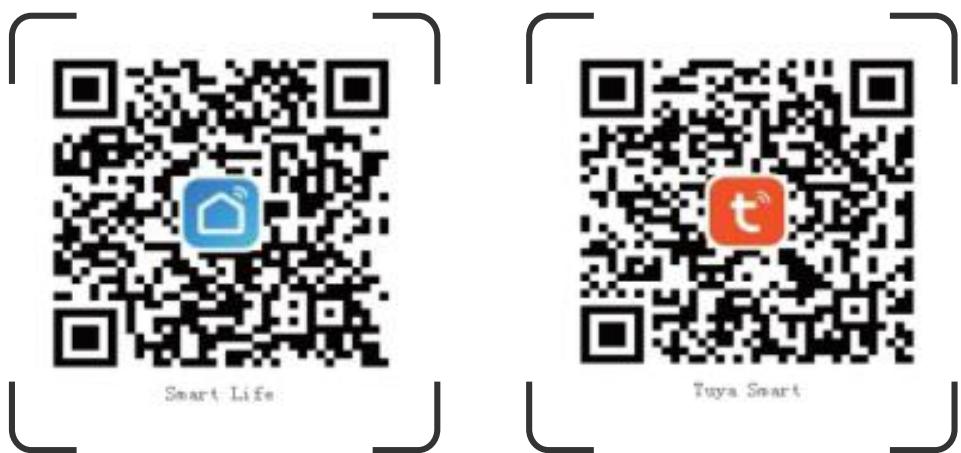

### 2.4G Remote control

Note: In pairing mode, the light will flash red and cannot be interrupted by remote within 10 seconds. The remote can control the lights after 10 seconds.

## App Control

Search for "Smart Life" or "Tuya Smart" in the app store  
- download and install. You can also download the  
application by scanning the QR code.

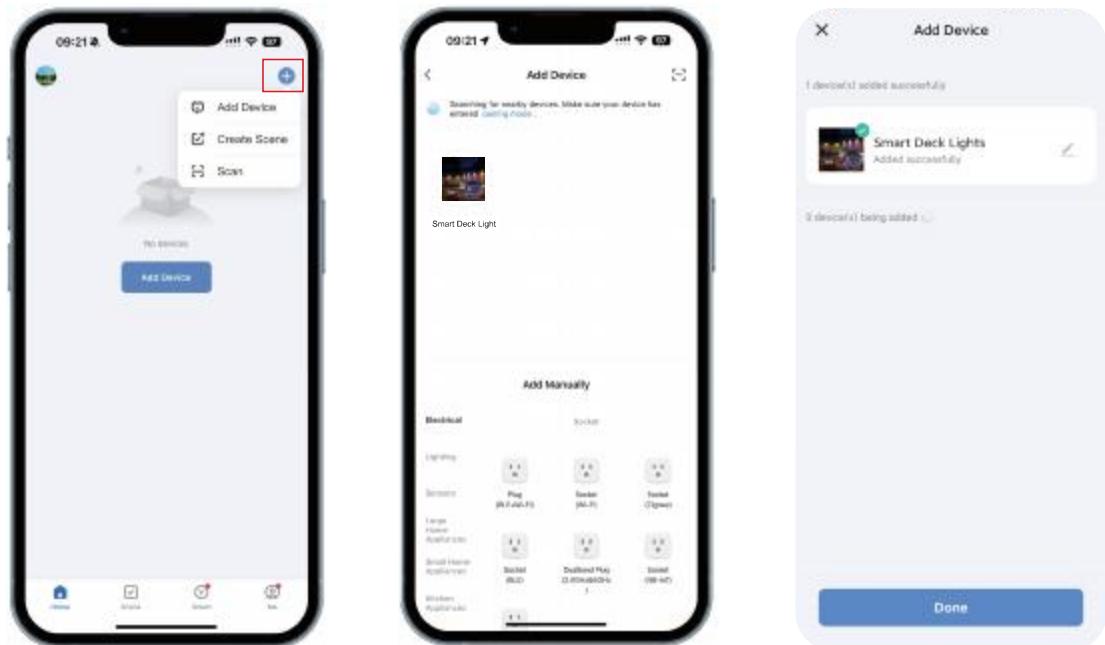

# How To Connect The App And Control The Light

**Step 1:** Turn on the lamp. It will automatically enter pairing mode, indicated by the red light on the lamp flashing. (If the lamp is not in pairing mode upon turning on, please reset it using one of the following methods):

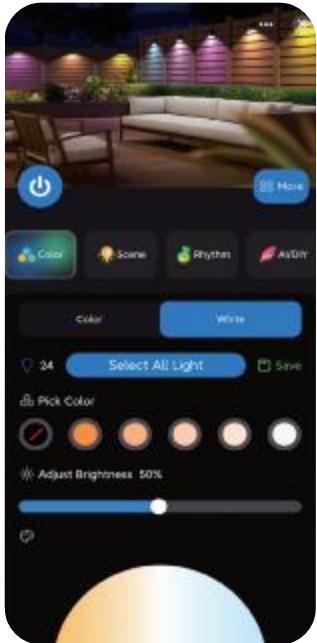

1. Press and hold the “” button on the remote or controller for 5 seconds. The red light on the lamp will flash, indicating that the lamp has entered pairing mode.
2. Switch on and off 5 times continuously.

**Step2:** Open the App and click the “+” sign in the upper right corner of the main interface. Make sure your bluetooth is on and your wifi signal is 2.4Ghz.

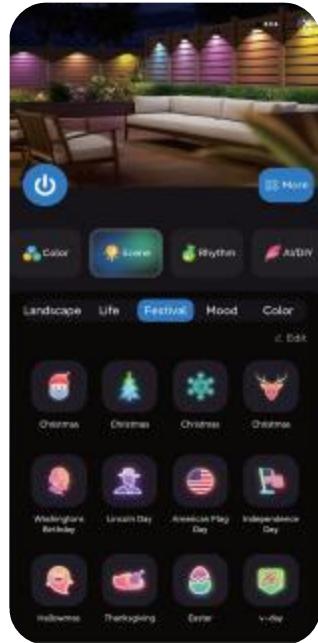

**Step3:** Click the device icon to add the device. Enter the WiFi password, click Next and follow the steps to connect.

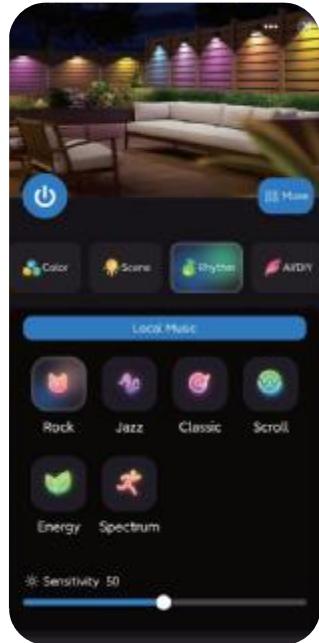

## Color Mode

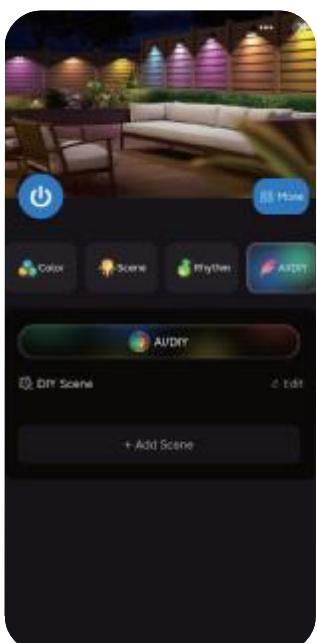

## Scene Mode

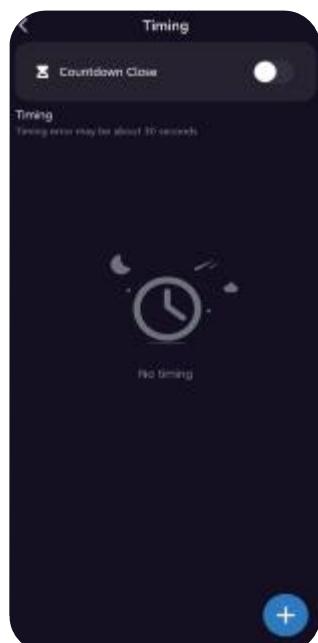

## Music Mode

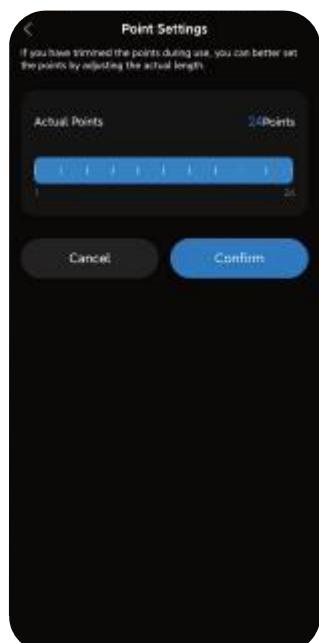

## AI/DIY Mode

## TIME SETTING

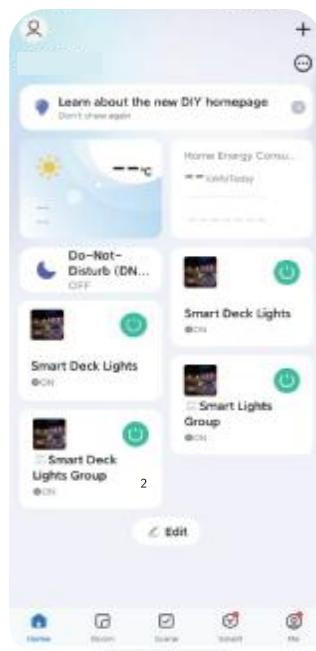

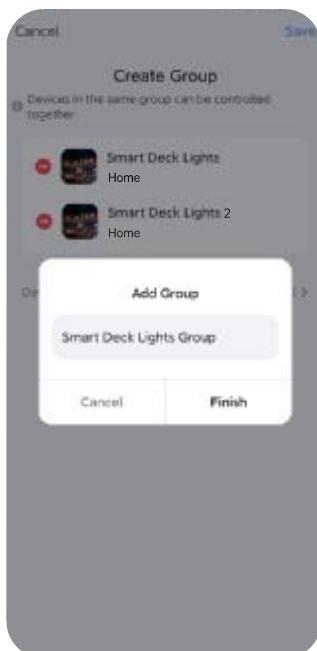

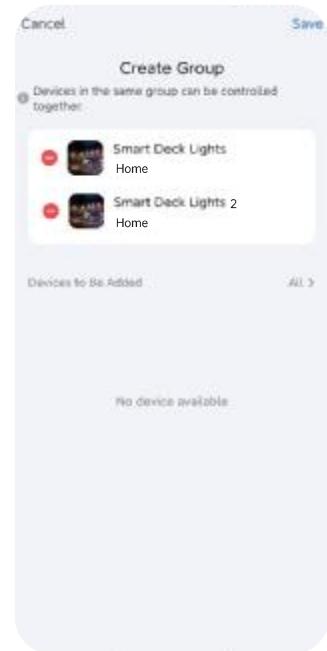

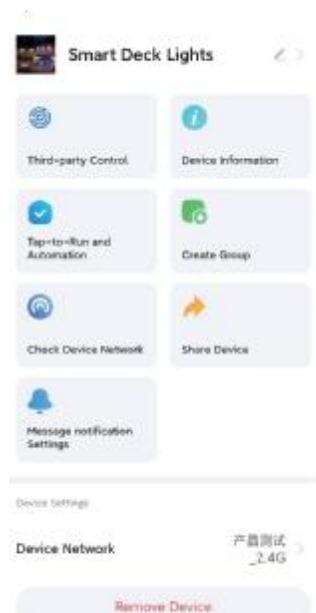

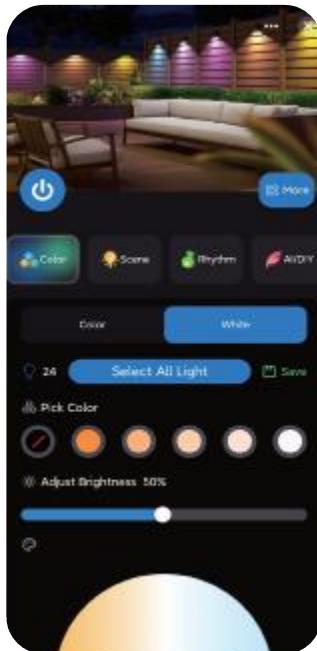

## POINT SETTING

# Group Control Instructions

- 1.Tap the "..." icon in the top-right corner to enter the group setup interface.
- 2.Select "Create Group" to access the group creation screen. Tap the "+" icon to add devices to the group, then click "Save" in the upper-right corner to save your settings.
- 3.Return to the main app interface, and tap the group.

# VOICE CONTROL GUIDE

Name and Control Each Device by Voice

Thank you for purchasing our smart products! Make sure your devices are already set up using the Tuya Smart APP, then follow these steps.

---

## Voice Control Quick Guide for Alexa Assistant

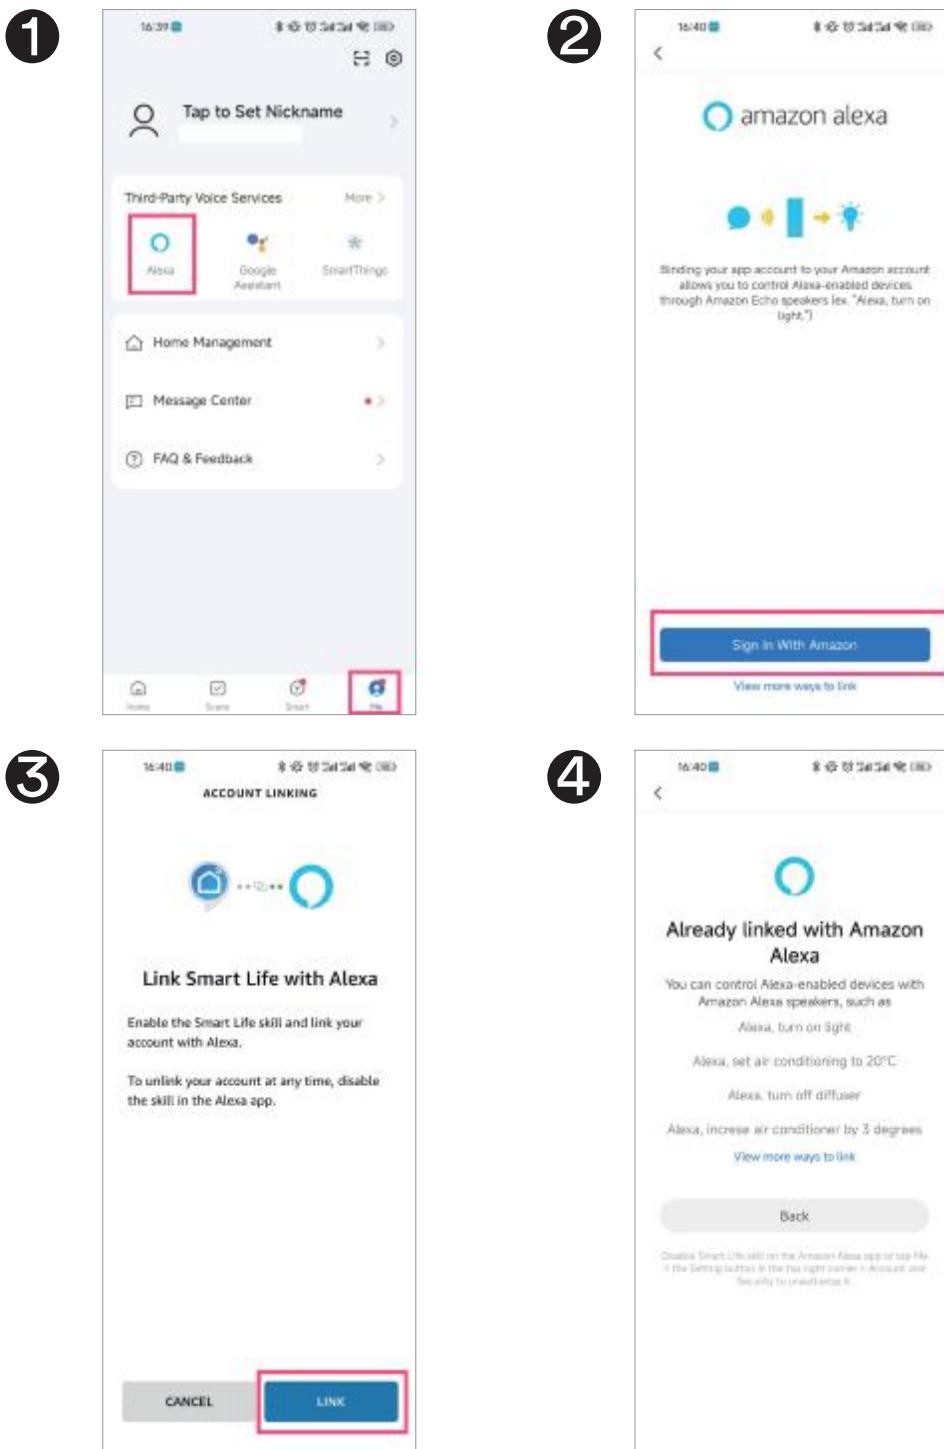

After you have successfully connected you can control or test the light with the following commands.

Alexa, turn on Smart Deck Lights.

Alexa, turn off Smart Deck Lights.

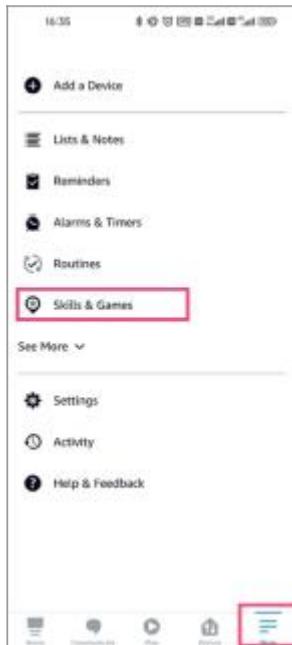

There are 2 ways to enable " Tuya Smart " Skill:

Method 1: Use Smart Life app to start binding

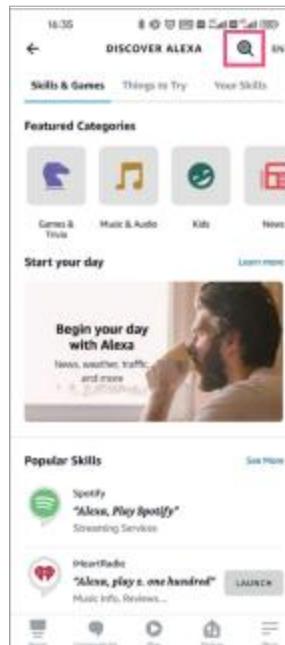

## Method 2: Use Alexa app to start binding

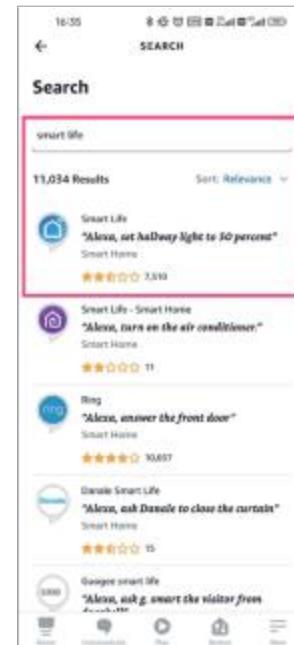

1

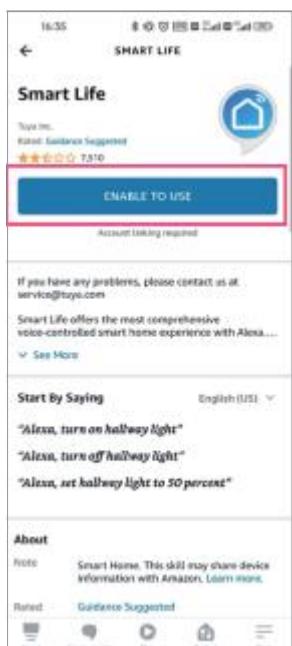

2

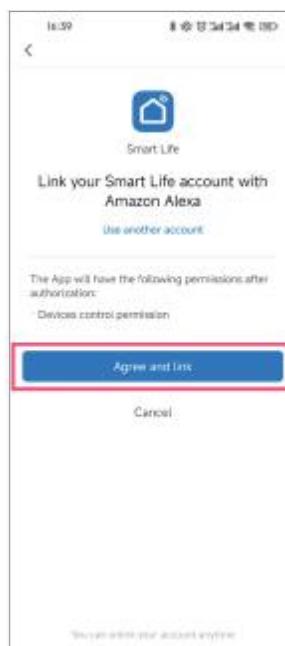

3

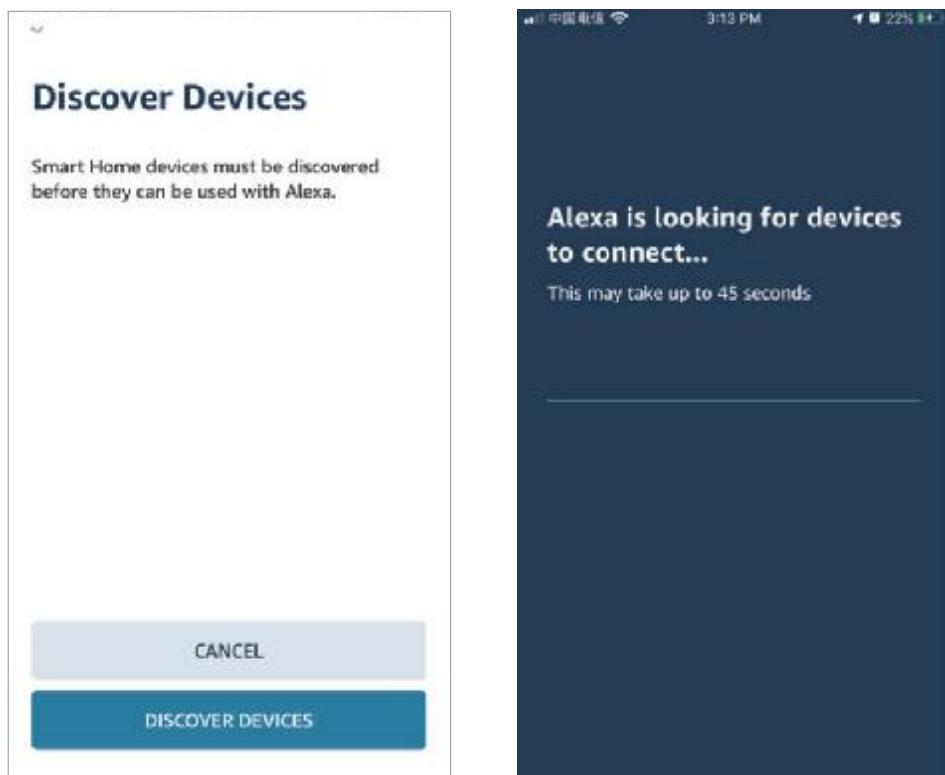

4

5

Choose "Discover Devices". After a few seconds your Smart LED Floor Lamp devices will be displayed under Smart Home in the Alexa app.

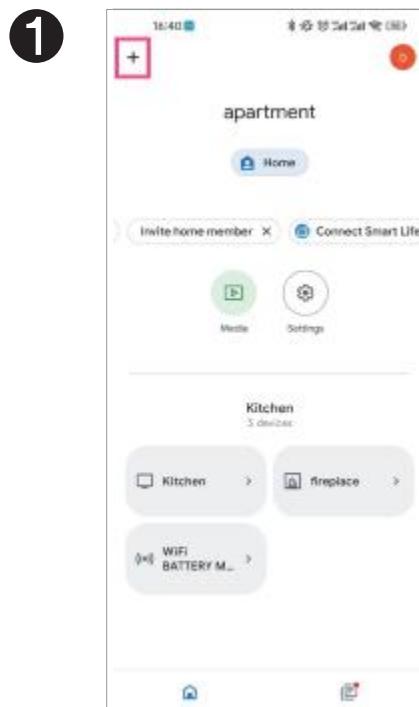

- ◆ You can rename your devices in the Tuya Smart app, and Alexa will refer to them by the same name.
- ◆ So if you rename a smart switch to "Living Room" or a nickname like "Blossom", then Alexa will use that same nickname later on.
- ◆ Alternatively, you create an Alexa group, like "Bedroom" or "Downstairs", and add the device to the group.
- ◆ Alexa will recognize the group name in the Alexa app, or the device name in the Tuya Smart app.

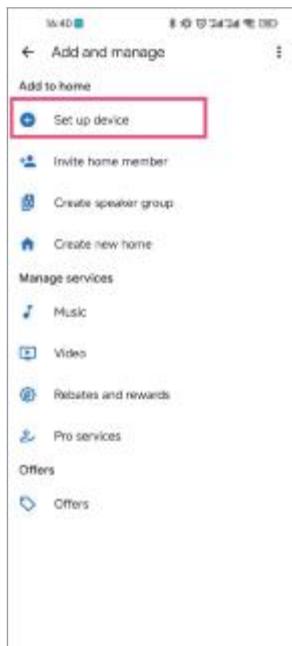

# Voice Control Quick Guide for Google Assistant

Method 1: Use Google Home app to start linking

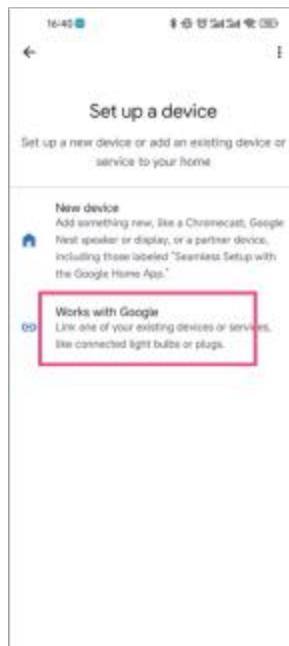

1. Open the Google Home app and tap + in the top left corner of the homepage.
2. Select Set up device > Works with Google.
3. Tap the Search icon in the top right corner of the page, and search by Smart Life app name.
4. Tap the searched result and then Continue. The Google Home app will wake up the Smart Life app. Tap Agree and link and wait to the end of loading. This way, the Smart Life app is linked with the Google Assistant.

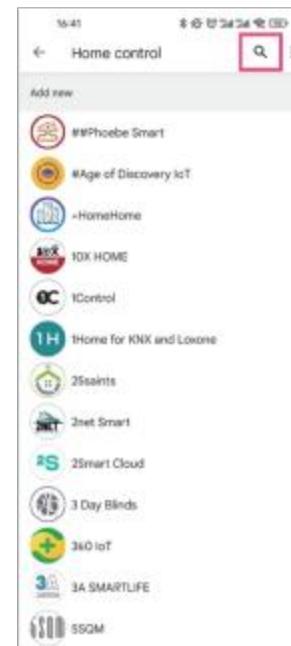

2

3

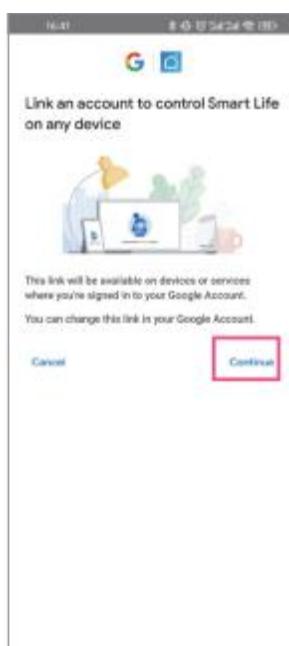

4

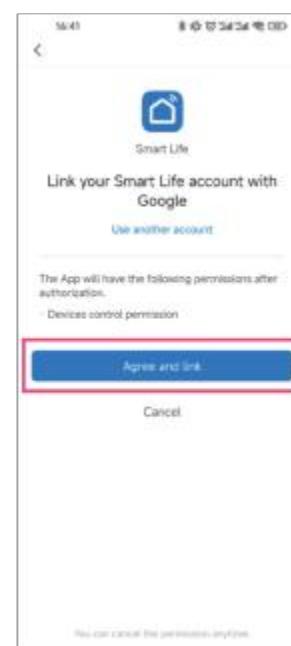

5

6

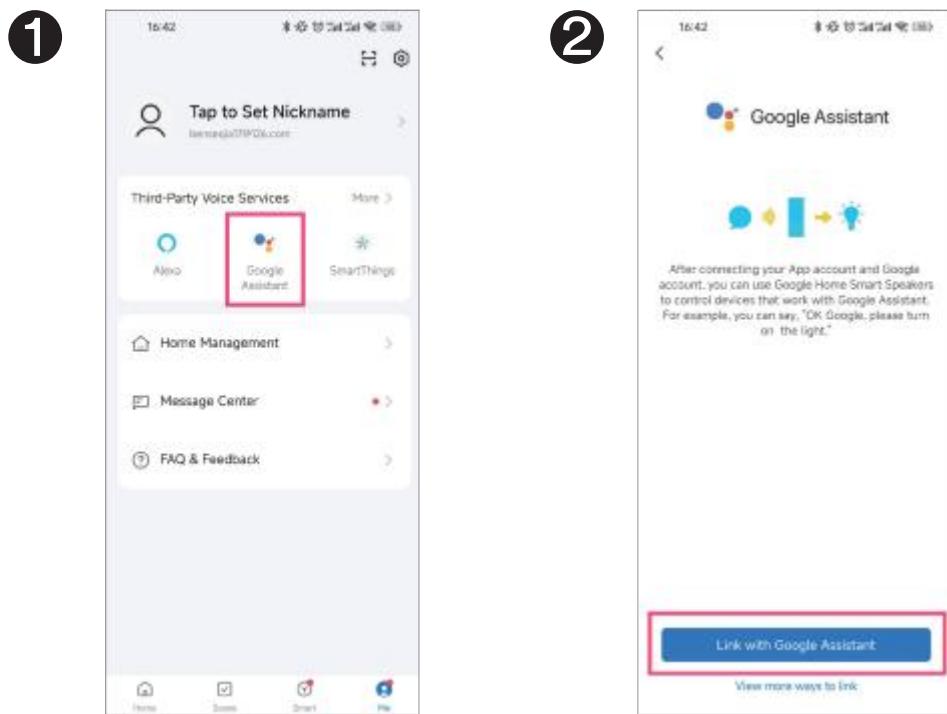

7

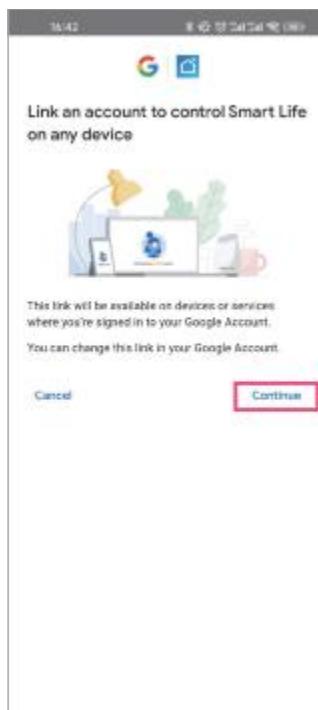

## Method 2: Use Smart Life app to start linking

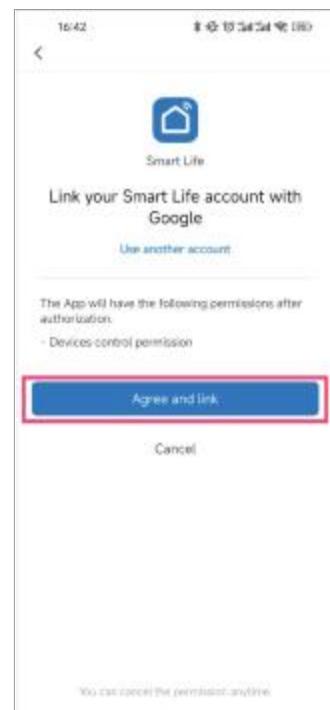

- 1.If the mobile phone has the Google Home app installed, open the Smart Life app and tap Me on the tab bar.
- 2.In the Third-Party Voice Services section, select Google Assistant > Link with Google Assistant to wake up the Google Home app.
- 3.Tap Continue to return to the Smart Life app.
- 4.Tap Agree and link to access the Google Home app. This way, the Smart Life app is linked with the Google Assistant

3

4

### Step 3: Use Google Home to control smart devices

Now, users can speak the following voice commands and control your smart devices from Google Home. For example, for a bedroom light.:

Google,turn on Smart XX Light.

Google,turn off Smart XX Light.

**If you have any questions about use and operation, you can contact us!**

1. Customer Service Email:

**smavista.service@gmail.com**

2. Contact Amazon sellers in Amazon mail for purchase or after-sales issues

After the customer places an order, there will be a "Contact seller" option on the page, mainly by sending an email to contact the seller, or on the product page, click the seller's name to see the seller's contact information.

After logging in to your Amazon account, click "My Orders";

If the product is sold directly by Amazon, there is the seller's contact information on the right.

You can also go directly to the shopping page of the product, and see "Seller XXX, Delivery XXX" on the details page, which means that it is sold by a third-party store seller.

Then click on the seller's name to see the seller's contact information in the lower right corner of the page.

After that, everyone can contact the seller and communicate about the product.

# Troubleshooting Guide

## 1. Unable to Connect to Wi-Fi

Verify that your Wi-Fi network is 2.4GHz; this product does not support 5GHz networks.

Double-check that the Wi-Fi name and password are correct.

Move closer to the router to ensure a stronger signal.

## 2. App Not Functioning Properly

Close all other apps running in the background and reopen the Smart Life app.

If issues persist, uninstall and reinstall the Smart Life app, then repeat the setup process.

## 3. Smart Lights Not Connecting to the App

Confirm that the lights are powered on.

If needed, reset the lights and try connecting again.

**FCC Statement:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following

two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may

cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital

device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy

and, if not installed and used in accordance with the instructions, may cause harmful

interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause

harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help. Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

**RF exposure warning:**

This equipment complies with radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with Minimum distance 20cm between the radiator and your body.

L'environnement du millipascal incontrôlés, leurs conditions normales d'utilisation de maintenir, au moins 20cm avec les utilisateurs.
