IMPORTANT!

Read the user manual carefully before using the product and save it for future use. If you follow these instructions, you will enjoy the product for a long time.

- Repairs to electrical devices may only be carried out by authorized service personnel. Improper repair can put the user and the device in serious danger.
- Do not push objects into any openings on the device as damage to the device and/or electric shock may occur.
- Do not use the device for anything other than what it is intended for.
- The LED lights cannot be replaced and must not be unscrewed.
- Before first use; open the battery door on the underside of the device. Make sure the polarity is correct (see battery cover). Batteries that are not inserted properly can cause damage to the product.
- Do not mix alkaline, standard (carbon-zinc) or rechargeable (nickel-cadmium) batteries.
- Do not mix old and new batteries. Replace all batteries in a set at the same time.
- Rechargeable batteries are not recommended for this product.
- Remove the battery if the device is not to be used for a long period of time.
- Used batteries can be harmful to the environment. Do not throw them away with normal garbage. Remove the old battery and dispose of it according to local guidelines.
- Never dispose of batteries over an open fire. They can explode or leak.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and,
 - (2) this device must accept any interference received, including interference that may cause undesired operation.
- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

*RF warning for Portable device: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
