Headphone Controls

ON/OFF

Turn on the headphones:

Press and hold the "+" Button until the LED Indicator flashes blue.

*the headphones will say: "power on"

Turn off the headphones:

Press and hold the "+" Button until the LED Indicator flashes blue.

*the headphones will say: "Power off"

Pairing

1. Start with the headphone turned off.
2. Press and hold the "+" Button for 1 to 3 seconds until the LED Indicator flashes red and blue alternately.

3. Open your (mobile phone / computer) device's Bluetooth settings and select "EK-OH**", Click the device to pair and connect.

How to Wear

Pick up the headphones, bring them behind the back of the base of your neck, position the earhooks on your ears, then enjoy your music!

*Wearing your headphones the wrong way could cause discomfort. The transducers should rest in front of your ears.

Volume

How to change volume:

While your audio is playing, adjust headphone volume by pushing either the Volume + or Volume - buttons.

*A "beep" will sound when the volume is at its max.

*Listening with headphones at high volume may affect your hearing and the audio will be distorted.

Charging Tips

Charging

Charging Completed

The first use of the headset must be fully charged to the battery. In use, if only the red light flashes and the voice prompting low power, that the battery is low, then you need to charge the headset. The charging cable should be connected to the headset's magnetic charging port, about 2 hours to fill. Charging status indicator flashing breathing light, full charge often blue light.

Note: Magnetic charging has a positive and negative pole corresponds to each other adsorption can be charged normally, mustual repulsion can not be charged or even cause a short circuit.

Storage and Maintenance

- Store the headphones in a cool, dry place. The working temperature should be 0~45°C(32~113°F). Working in a cold/hot temperature, highly humid area, or low air pressure environment may reduce the battery life.
- Keep the product away from heat sources, direct sunlight, combustible gas or other liquids.
- Keeping the charging port dry before connecting to the charger will reduce the risk of damage.
- The headset can not soak seawater/salt water for a long time, filling the magnetic suction part is easy to corrode.
- Clean the headphones with a soft dry cloth.
- Do not charge right after exercising, in case there's sweat inside the charging port, which could lead to circuit burning while charging.
- If not used for a long time, please at least once a month full of electricity.

Warning

To avoid the risk of explosion, fire, or leakage from toxic chemicals, please do not disassemble the product or replace, deform, or mutilate the battery.

Warranty

One year warranty for manufacturing defects.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.*
- Increase the separation between the equipment and receiver.*
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.*
- Consult the dealer or an experienced radio/TV technician for help.*

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
