【Tips and Warnings】

In order to emphasize the important information of the user manual, special attention should be paid when seeing the label  , which indicates some important warnings and reminders.

【Important Tips】

Please read all instructions before installation, it is recommended that the machine be installed by a car audio professional.

 This machine is suitable for vehicle 12V power supply system (grounding wire is required), please do not install this machine in 24V vehicle, otherwise it will damage the machine.

 Do not repair the power fuse without professional guidance. Improper use of the fuse can cause damage to the machine or cause a fire.

 To avoid violating traffic rules, drivers cannot watch videos while driving and operating machines to avoid unnecessary accidents.

 For the sake of safety and to ensure the normal use of the product, please invite professionals to install, disassemble or repair the machine to avoid machine damage and accidents.

 Please avoid placing this product in a humid environment and water to avoid fire due to electric shock or other unnecessary damage.

Note: To prevent burning out the machine, please do not energize until you have connected the power cord correctly!

【Test】

A quick simple test before the installation is to confirm that the device is working normally and as expected. In case there is a wrong step in the subsequent installation, which causes it to fail to work. If you perform a successful test but the unit did not work after installing it please recheck the installation steps.

Test car stereo: ①The red and yellow wires of the car stereo combine together firstly and then connected to the positive pole of the 12V battery,② The black wire is connected to the negative pole of the battery. ③ 2 seconds later, check the car stereo, if the screen is lighting up, it means the car stereo is proper functioning.

【Installation】

1 Screw fixed installation

2 Card position fixed installation

3 Special frame fixed installation

As shown in the figure above, there are three ways to install the machine, please choose one of them according to the actual situation. Of course, you can also re-install the new radio according to the installation method of the original car radio.

【Wiring】

(Note: The picture is for reference only, please refer to the actual product!)

1. Harness

01 FL+	07 ACC	13 RL-
02 FL-	08 GND	14 RL +
03 FR+	09 B+	15 RR+
04 FR-	10 ILL	16 RR-
05 KEY-1	11 KEY-2	
06 BACK	12 ANT. POWER	

2. Back interface diagram

- 1、Power Cable
- 2、RCA Input/Output
- 3、8pin BREAK1.
BACK_CVBSIFI/BT
- 4、2USB Cable
- 5、Camera Input
- 6、Radio antenna
- 7、GPS Antenna

3.Rear view camera wiring (Optional)

1. Monitor (Not Included in the Package)
2. Camera Power Source

【Icon Introduction】

1.Machine-Host

Symbol	Operations & Controls
MIC	Built-in microphone hole
RST	Reset (press with a sharp object)

	<p>Power on the device Press and hold for 3 seconds to power off the device Short press repeatedly to mute or unmute</p>
	To main menu
	Return to the previous interface
	Press or hold repeatedly to increase volume
	Press or hold repeatedly to decrease volume

2.On Screen - Main Interface

(Note: The main interface is different for different products, please refer to the specific product)

Icon	Name	Operations
	Main menu	Touch to switch screen to main menu
	Hide shortcut menu	Touch to hide the shortcut menu button area
	Backstage	Touch to show all programs running in the background
	Return	Touch to switch screens to return to previous screen
	Setting	Touch To Enter Settings
	Application	Touch To Enter More App Interface
	Navigation	Touch To Enter Navigation

3.On screen - Drop-down list

Icon	Name	Operations
	Wireless	Turn on/Wireless

	Screen off	Open/Close Screen
	Screenshot	Touch to take a screenshot
	Car setting	Touch to enter Car setting
	Clean-up	Touch to clean
	OPTICAL	Turn on/off OPTICAL

4.On screen - APP Icon

(★It only means that there is this APP in the product, if you need to use it, you need to purchase additional accessories!)

Icon	Name	Operations
	BT	Touch into bluetooth
	PODOFO Voice	Touch to enter smart voice settings
	PODOFO+	Touch to enter the intelligent voice software
	★DAB+	Touch to enter DAB+
	HERE WeGo	Touch to enter offline map
	Car set	Touch to enter car settings
	Car Settings	Touch to enter settings, enter password 8888 for factory settings
	Maps	Touch to enter google map online
	Phonelink/TIMA	Touch to connect to mobile phone
	Video	Touch to enter video playback
	Filemanager	Touch to enter file management

Factory Password	000000

Thank you again for using our product. If you have further questions, please contact our customer service staff. Product UI interface or functions may be modified and upgraded from time to time without notice. It is normal if the manual has some discrepancies!

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
