Introduction to wireless intercom connection operation (intercom and music sharing are switched off by default every time you switch on the computer)

I: MESH Networking Pairing. The corresponding channel or intercom mode will be broadcast when the intercom is switched on.
1.Channel Selection
Switch on intercom mode, channel 1 channel 2 channel 3 channel 4 channel 5 channel 6 channel 7 channel 8 ...... 【Under power on condition (without entering intercom mode), press 'intercom button + volume up button' at the same time to select】.
Channel 0 Channel 10 Channel 20 Channel 30 Channel 40 Channel 50 Dual Intercom Mode 【Under power on state (without entering intercom mode), press 'intercom key + volume down key' at the same time briefly to select】.
Only those with the same channel can be grouped into a network link, and they can come and go whenever they want. After setting the channel, the next time you switch on the phone, it will remember the previous channel.
2. Switch on all the units.
3. Select one of them to be the host and long press 'volume plus + intercom button' to activate the network, prompt: group 1, start to group network.
Example: 15 units are all set to channel 10, one of them is the host, long press 'volume up + intercom button' to activate the network, 15 units can be connected, and the other new members, also set channel 10, will automatically join the 15-member mode.
II: Link status and location query
After establishing the network, click the intercom button to check the number of people and location of the link, such as No. 4 click, prompt: intercom number 15, group 4. exit intercom mode: just long press the intercom button for 3s, prompt: close the intercom mode, that is, you can exit. If No.4 exits, No.3 will automatically connect with No.5, and next time No.4 enters the intercom mode, it will automatically fill in the end.
III: Clear intercom pairing, restore factory settings
Under power on state, long press 'Volume Up + On/Off' button for 5 seconds, the music indicator and wireless indicator will flash 3 times, then it will restore factory settings and clear all pairing information.
IV: Music Sharing
After the device is switched on, one mobile phone connects to the device to play music by wireless, and enters the music sharing transmitting mode, the blue indicator light flashes fast, the other device short presses the music sharing key to enter the music sharing receiving mode pairing, the blue indicator light flashes slowly, after pairing is successful, the indicator light of the receiving end is long lit, the indicator light of the transmitting end flashes fast, and the music sharing is successful.
V: RGB light
After switching on the phone, the RGB light is off by default, short press the switch key + intercom key at the same time to switch the RGB light effect.

VI: Use the machine to connect a third-party helmet wireless headset for intercom calls.
When the machine is switched on, it enters intercom mode (adjusted to two-person mode)and then simultaneously long press the intercom button with the volume up button for 3 seconds, hear the tone: search, wireless headset boot into wireless mode, the two began to connect, connect successfully, there will be a prompt to intercom connection, hear the 'thud' sound, that is, to start intercom. Recommended to connect the third-party wireless headset, first use the mobile phone to connect to the local wireless, to prevent the intercom connected to the local wireless
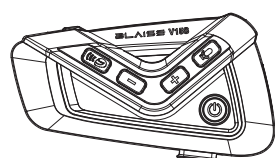

VII: Auto Answer On/Off
Switch on the power, in the case of not connecting wireless, intercom, music sharing: double-click the volume up key to switch between manual and auto answer mode, default auto answer.
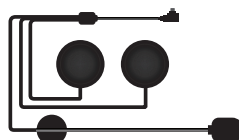

VIII: Dual Language Tone Switching
After switching on, in the case of not connecting wireless, intercom, music sharing: double-click the power on/off button to switch.

Product Parameter

Product model	V15S
Waterproof rating	IPX6
Lithium battery	1000MAH
Charging time	≤2.5H
Number of interlocutors	15 people
Intercom hours	15H
Endurance	25H
Standby time	270H
Charging voltage	5V/1A
Applicable models	Motorcycle / Electric Vehicle

Caveat

1. Do not put the product into open flame to avoid explosion;

2. Do not disassemble the product to avoid damage to the product's electronic components;

3. Please do not close to sharp objects to cause damage to the product;

4. Please place it in a dry place if it is not used for a long time;

5. Before using the wireless device, please fully charge it first.

6. If the red light does not come on when charging, the voltage may be too low;

7. In order to extend the life of the built-in polymer battery, please charge the device at least once a month.

Instruction warning

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference wil not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be detemined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions.

(1)This device may not cause harmful interference.

(2) This device must accept any interference received,

including interference that may cause undesired operation.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device can be used in portable exposure condition without restriction.
