Wireless electronic endoscope
instruction manual

Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

− Reorient or relocate the receiving antenna.

− Increase the separation between the equipment and receiver.

− Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

− Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Intended use of the product：Take macro images.

Instructions

1. Scan QR code for the app.
2. The usage is as follows:
   - Short- press the power switch, the light is on in the transparent cover, and the device starts;
   - Connect the device WiFi. The device WiFi SSID is AAA_XXXX with a default password: 12345678;
   - Connect to display real-time video. Operations of video, pictures, and vibration control can be carried out;
   - Long press the switch key 3s to shut down.
3. Product size: 182MM in length, 26MM in diameter.
4. Product Content: Including mainframe, charging line, Instructions and certificate
5. Basic functions of buttons
   - Short press the device to start up in the shutdown state
   - Switch the vibration mode by short- press in the startup state
   - Long- press 3s for to shut down in startup state
   - Long- press 3s to restore factory settings in startup state
6. Indicators
   - White light flashes 3 times on/off
   - White light on, and images in real-time will be shown on APP.
   - Red light on for charging
   - Green light on for fully charged
