This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:</p> <p>(1) this device may not cause harmful interference, and</p> <p>(2) this device must accept any interference received, including interference that may cause undesired operation.</p> <p>Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"><li>– Reorient or relocate the receiving antenna.</li><li>– Increase the separation between the equipment and receiver.</li><li>– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.</li><li>– Consult the dealer or an experienced radio/TV technician for help.</li></ul> <div data-bbox="638 555 1244 600"><h3>Product Introduction:</h3></div> <p>This product uses the latest 5.4 Bluetooth chip, and incorporates the latest Bluetooth technology, with strong stereo sound. Super strong signal transmission, ultra-low power consumption, and support for all Bluetooth devices, incoming calls will be automatically answered, no need to manually answer calls anymore, safe and convenient. You can also turn off automatic answering and use high-quality speakers with strong magnets.</p> <div data-bbox="638 725 1244 770"><h3>ON/OFF:</h3></div> <p>Press the power button  for two to three seconds to turn on the device. The indicator light will flash red and blue alternately, indicating that the device is in the power-on state. Press and hold the power button  for two to three seconds to turn off the device. There will be a sound notification and the indicator light will not be lit after shutdown.</p> <div data-bbox="1197 860 1228 887"><p>1</p></div>	<div data-bbox="1244 71 1851 116"><h3>How to switch between Chinese and English voices:</h3></div> <p>After powering on, the indicator light flashes alternately in red and blue. Do not connect with the phone at this time. Press the power button  twice in a row to switch between Chinese and English voice.</p> <div data-bbox="1244 188 1851 232"><h3>Connect to two phones at the same time:</h3></div> <p>After turning on the Bluetooth headset, connect it to phone A first. Then turn off the Bluetooth on phone A and connect it to phone B. After successfully connecting to phone B, turn on the Bluetooth on phone A again to connect to both phones simultaneously.</p> <div data-bbox="1244 313 1851 358"><h3>Switch between automatic answering and non-automatic answering</h3></div> <p>When the music is paused, press the "-" key twice quickly. If you hear a "dong" sound, it means that it has been switched over.</p> <div data-bbox="1244 403 1851 448"><h3>Manual steering and gravity sensing power steering switching</h3></div> <p>Press three times quickly , I heard a thumping sound, It proves that it has been switched.</p> <div data-bbox="1244 501 1851 546"><h3>How to connect to your phone:</h3></div> <p>After turning on, the indicator light flashes red and blue alternately. At this time, turn on the Bluetooth device on the phone, search for Bluetooth devices on the phone, find "JYD-BT80" and connect after a few seconds to successfully connect. Once connected, the next time you use it, the phone's Bluetooth and Bluetooth headset will connect automatically when both are turned on.</p> <div data-bbox="1244 645 1851 689"><h3>Volume up/down/song switching:</h3></div> <p>Long press the plus sign "+" to increase the volume, short press the plus sign "+" to switch to the previous track. Press and hold the minus key "-" to decrease the volume, and press the minus key "-" briefly to switch to the next track. Press the "" key to play, pause, rewind the call, and answer the call.</p> <div data-bbox="1244 779 1851 824"><h3>Answer the phone:</h3></div> <p>Incoming calls are answered automatically, or you can answer them manually by pressing the call symbol "".</p> <div data-bbox="1803 860 1835 887"><p>2</p></div>	<div data-bbox="1851 71 2457 116"><h3>Product charging:</h3></div> <p>The product will voice prompt low battery, it can be fully charged in 3-4 hours, the red light will be on during charging, and the red light will go off when fully charged.</p> <div data-bbox="1851 161 2457 206"><h3>Start the red and blue light flashing effect:</h3></div> <p>Press twice quickly , Turn on the red and blue light flashing effect.</p> <div data-bbox="1851 241 2457 286"><h3>Package content:</h3></div> <ol style="list-style-type: none"><li>1.
