Get Ready

- Know your Wi-Fi network and password.
- Make sure your mobile device is running iOS 13.3 or higher and Android 9.0 or higher.
- Make sure you're connecting to a 2.4GHz Wi-Fi network (Lumary can't connect to 5GHz networks).

INSTALLATION INSTRUCTIONS

IMPORTANT:

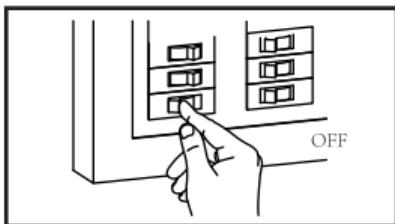

Read all instructions before installing fixtures. Retain for future reference.

SAFETY:

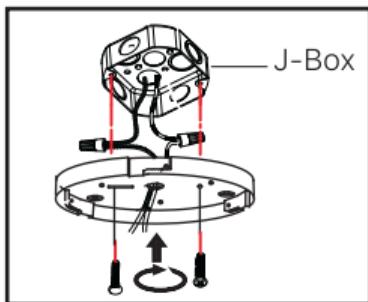

For your safety, this fixture must be wired in accordance to local electrical codes and ordinances. All work should be done by a qualified electrician.

WARNING :

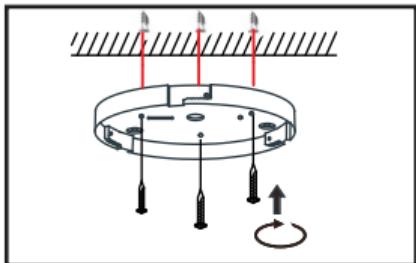

Make certain power is OFF from the electrical Panel before starting installation or attempting any maintenance. Indoor installation only.

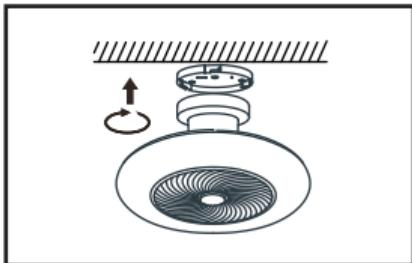

Please make sure turn off the power of the circuit breaker before installation.

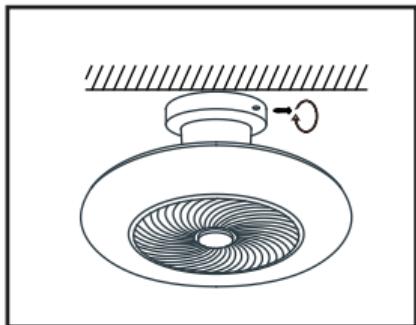

Screw the hanging plate to the J-box. Connect the wires with Terminal Cap. (Black is positive and white is negative)

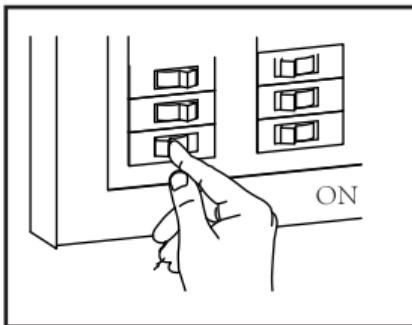

Screw the hanging plate to the Ceiling.

Rotate the lamp body to the secure the light to the hanging plate.

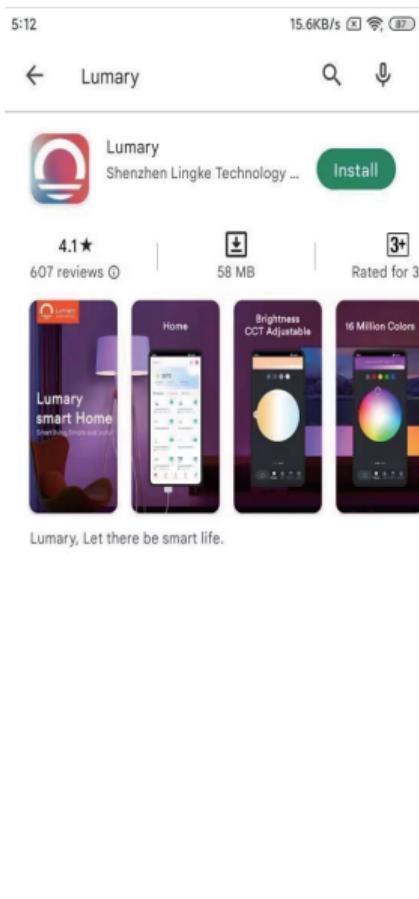

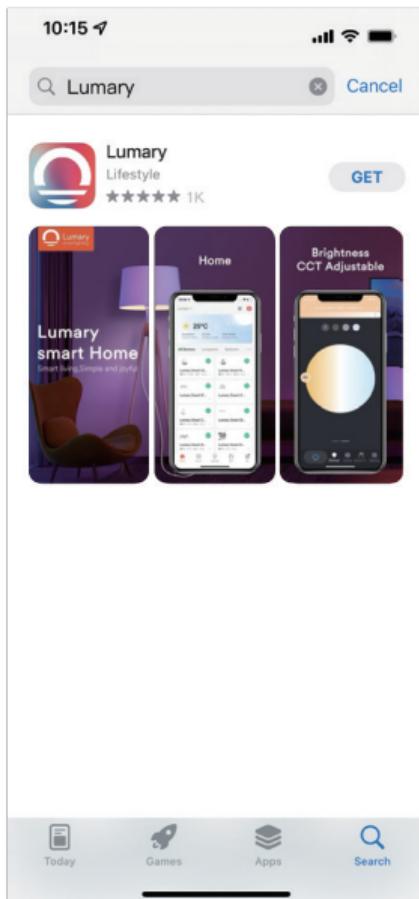

Tighten the screws of the mounting plate to ensure the lamp is installed firmly.

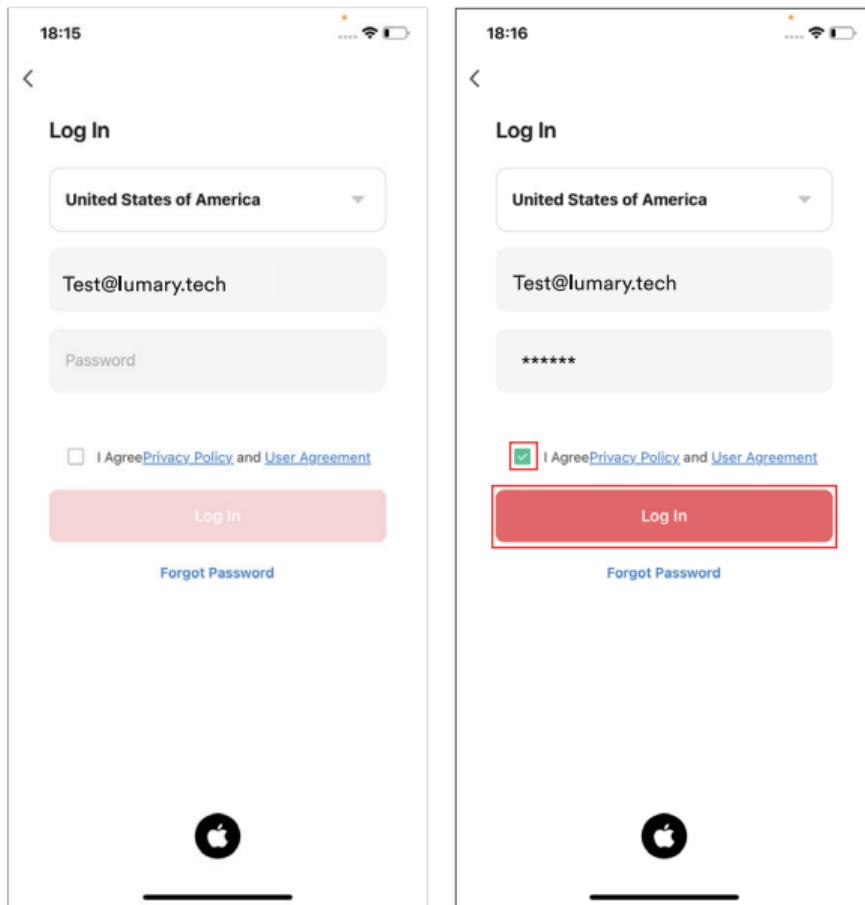

Turn on the power of the circuit breaker.

Application Connection

1. Find and install the "Lumary" App on App Store, Google Play.

2. Register a Lumary account.

Enter your email address.

Log into the App.

Note:Please select your region and country.

3. Connect

NOTE: Lumary's products can't connect to 5GHz networks.

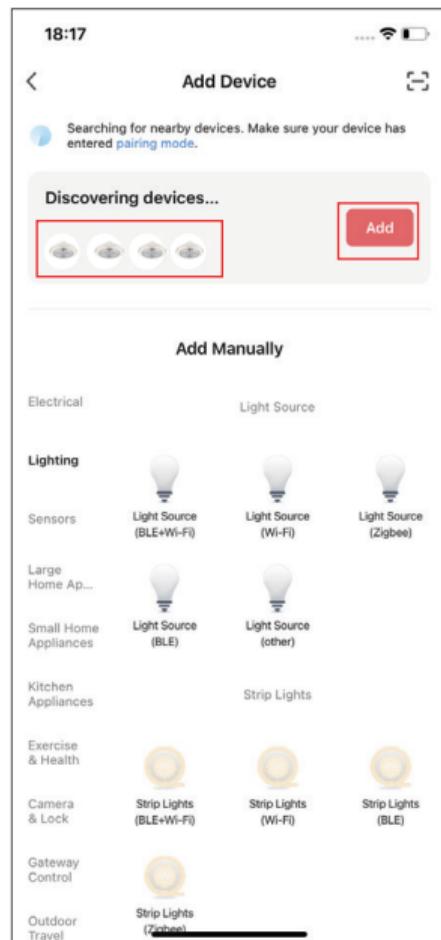

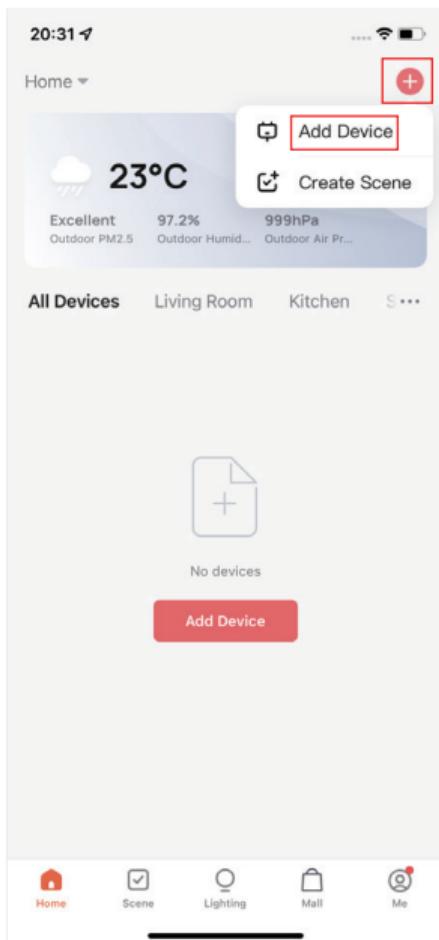

Steps:

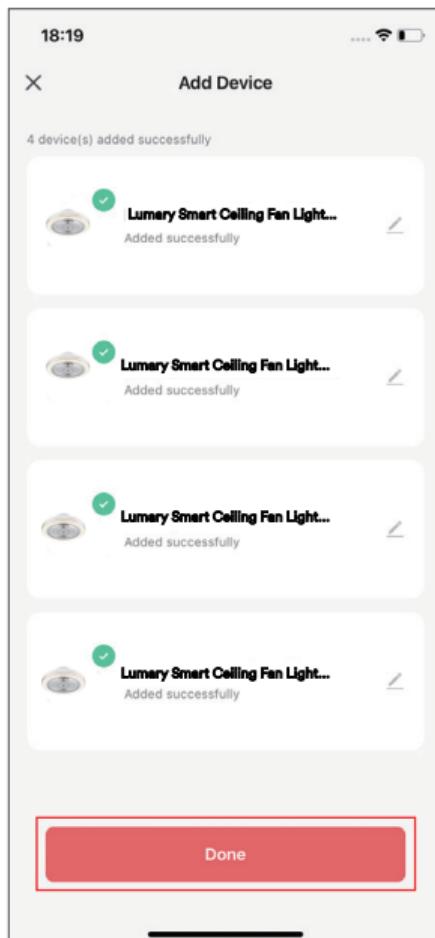

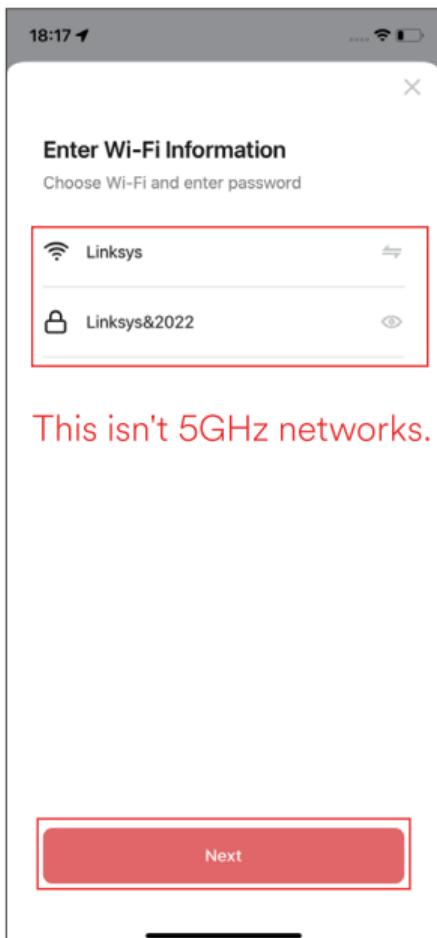

1. Advised to enable Bluetooth, Enable Bluetooth to add some Wi-Fi device easily;
2. Each time the device without distribution network is powered on, confirm the light is breathing or blinking pairing mode;
3. Open the Lumary App, In the top corner of the Devices screen, click "+" and select "Add Device" to confirm that the device is paired.

If not, you need to use the wall switch to reset: on-off-on-off-on;

4. Find the device, choose Wi-Fi and enter password, press "Next". Click "Add", and wait patiently. After that, click "Done", and the device is successfully added to the App.

5. Other ways to add devices, Open the Lumary App >> In the top corner, click "+" >> Choose "Lighting" >> Select "Light Source (BLE + Wi-Fi)" >> Select "AP Mode" or "EZ Mode" in the upper right corner.

4. Troubleshooting

1. Can't connect to your Wi-Fi network.

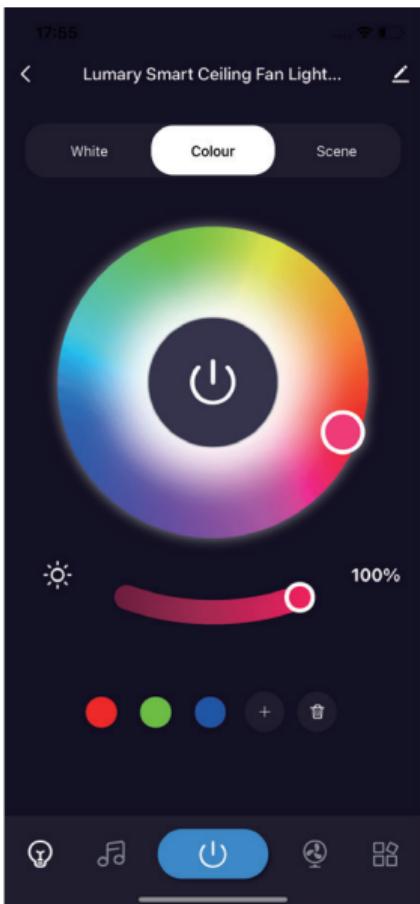

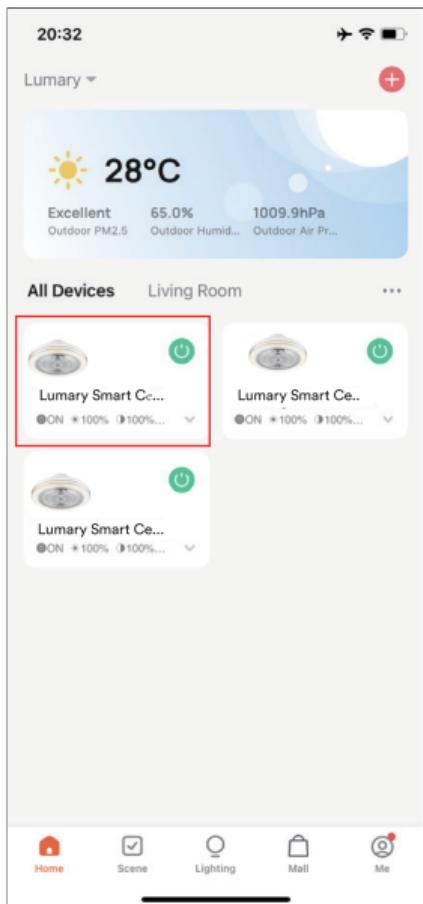

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

2. If you fail to bind, you will need two phones, one to set the hotspot and the other to connect the hotspot and add the device through the app. If the device is successfully added, the device is normal. The problem may be in the router, you need to check your router Settings to see if there are MAC and DHCP restrictions. Lumary's products do not support 5GHz networks.

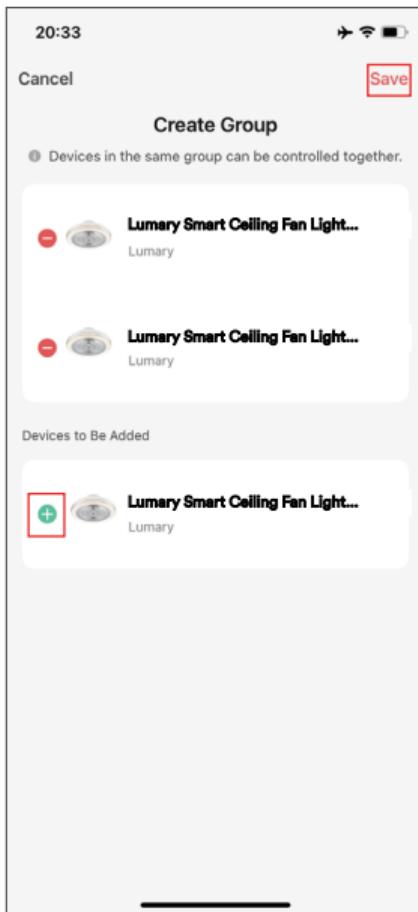

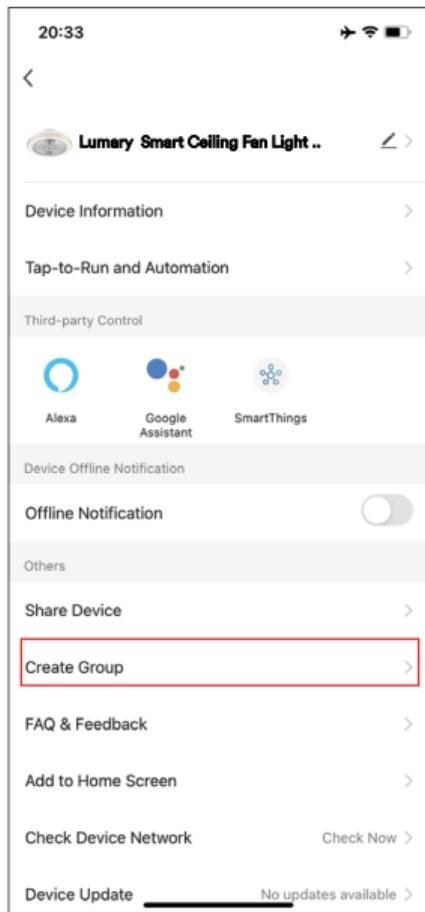

3. If you have any questions. You can contact us via our after-sales email: support@lumary.tech or leave a message on our official social media account.

Group Control

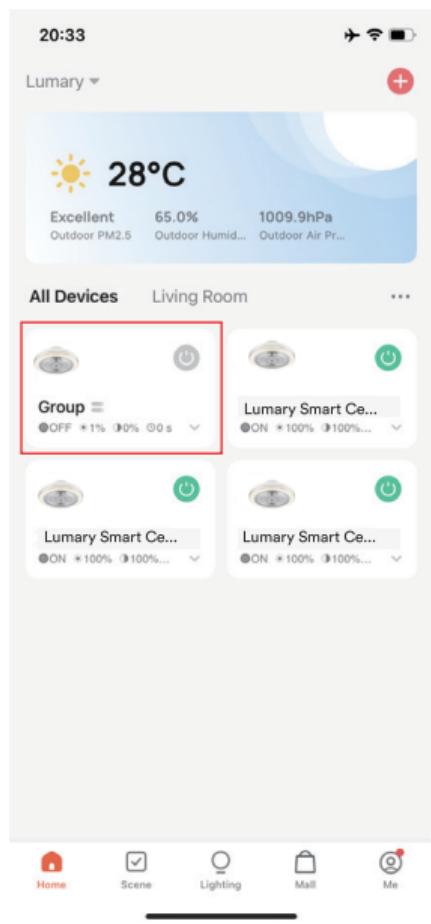

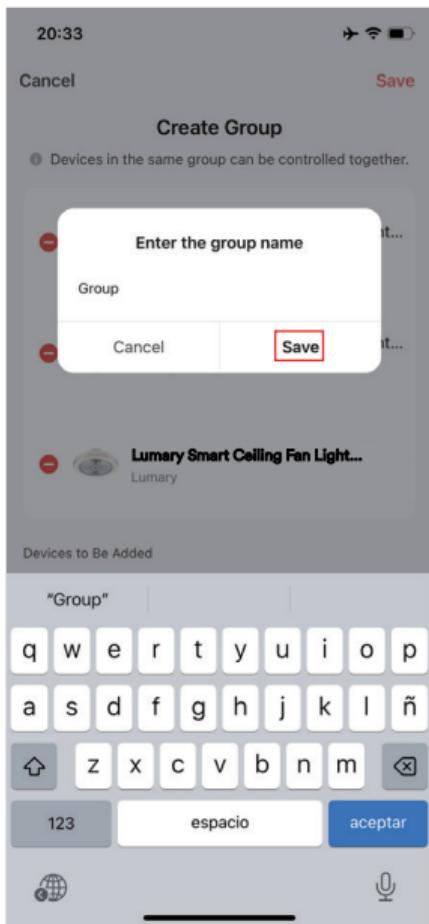

1. Log in to Lumary App, tap the smart device and enter into, click "✎" in the top right corner.

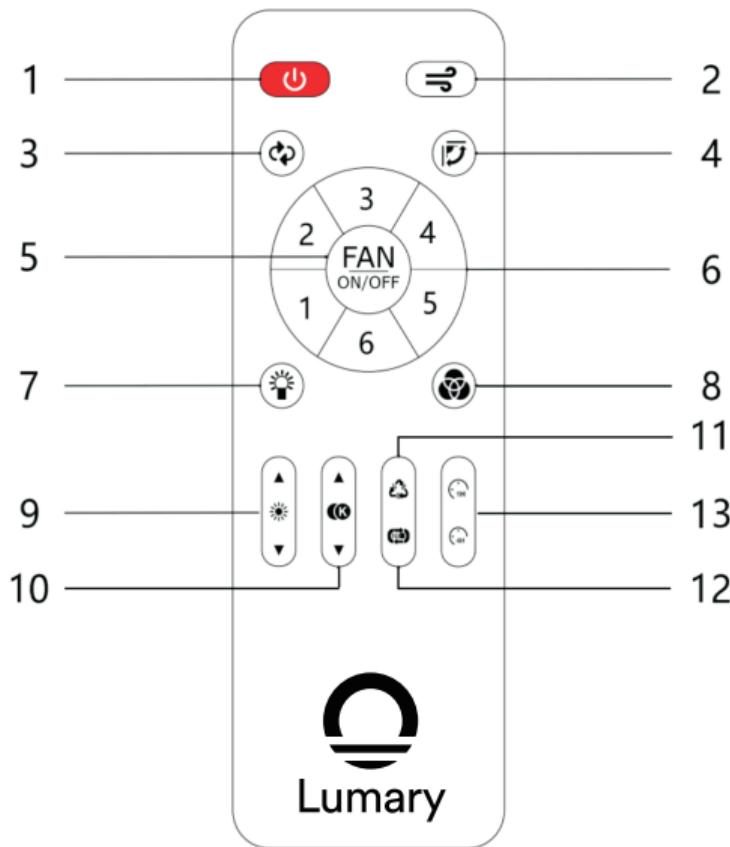

2. Click "Create Group", then select a device and save.

3. You can reset the group name and save it, and the group can control devices.

Remote Control

1: Turn on/off	2: Wind mode: nature/soft
3: Fan rotates: forward/ in reverse	4: Shaking head (Not supported yet)
5: Fan speed: 1 is the weakest, 6 is the strongest	6: Fan on/off, Long press 5 seconds to trigger the pairing mode
7: Turn on white color	8: Turn on RGB color
9: Change brightness	10: Change color temperature
11: Change RGB color	12: Change RGB mode
13: Countdown Timing 1 Hour/4 Hours	

The remote control and the fan light are paired by default at the factory, so there is no need to pair them.

If the remote control doesn't work, please re-pair it as below.

1. Connect the fan light to the power supply and make sure the fan light works normally (the light comes on slowly);
2. Turn the fan light off for 5~10 seconds and then turn it back on by wall switch;
3. Press and hold the button "1" until the fan light blinks 3 times rapidly and then release it;
4. Remote control pairing is successful, at this time you can press the button to control the fan light.

Long press the button "6" for 5 seconds to make the fan light enter App pairing mode;

FAQ

1. Why does the flickering occur with Lumary products?

Lumary's products are factory set to the default network configuration. If the device has not been connected to the network, it will flash for three minutes each time it is powered on. If the device has not been connected to the network, it will flash for three minutes every time it is powered on. If the device is connected to the network, it will stop flashing and will automatically connect to the network when it is switched off and on via the wall switch after 15 seconds.

2. What should I do if the device Appears offline or is unreachable?

Make sure your Wi-Fi router is online and in range, and check that you have the latest Lumary functionality by clicking "Check for firmware update" in your device settings. Try to turn off the device >> clear the application cache >> reboot the router >> turn on the device after one minute and check and confirm the device status after five minutes.

3. How do I reset the device?

To reconnect to Wi-Fi, Reset the device through the wall switch, on - off - on - off - on
- Reset once (press switch on - off - on - off - on) to reach Easy Mode, indicated by rapidly blinking white light. Refer to connect in Easy Mode.
- Long press the button "6" for 5 seconds to make the fan light enter App pairing mode.

CRI	80+
Lumens	2800lm
Beam Angle	120°
Rated Life	25000h

FCC ID: 2BFLH-JX02-006

Made in China

CAUTION:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
