End to End connections with Cap

MODEL NO. xxxxxxxxxx

Made in Cambodia

This unit can be operated by remote control or push-button control box:

Remote Operation:

- Read all enclosed Safety Instructions and cord tags before starting.
- Remove the pull-tab from the battery case to allow the remote control to function .
- To replace battery, pinch corner lock on battery door and pull out. Requires CR2032 or CR2025 battery.
- Clean the battery contacts and those of the device prior to battery installation.
- Ensure the battery is installed correctly with regard to the polarity (+ and -).
- Remove batteries from equipment when not used for an extended period.
- Remove used batteries promptly.

Using the Remote Control:

WARNING: Chemical Burn Hazard. Keep batteries away from children.

This product contains a lithium button/coin cell battery. If a new or used lithium button/coin cell battery is swallowed or enters the body, it can cause severe internal burns and can lead to death in as little as 2 hours. Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep it away from children. If you think batteries might have been swallowed or placed inside any part of the body, seek immediate medical attention.

The cells shall be disposed of properly, including keeping them away from children. Even used cells may cause injury.

Using the push-button control:

- Simply push control box button to cycle thru all colors and lighting effects.

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.
- (3) Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
