This image shows a close-up of a MediaTek MT7981BA SoC mounted on a PCB. The SoC is a square chip with a black surface, featuring the MediaTek logo and the text "ARM", "MT7981BA", "2323-AMNH", and "BTP22V80". It is surrounded by various peripheral components, including:

- Memory:** A large black memory chip (Nanya 2238) is visible to the right of the SoC. Other memory chips are visible at the top and bottom of the image.
- Capacitors:** Several electrolytic capacitors (e.g., C7115, C721, C7114, C720) are located near the SoC.
- Connectors:** A USB connector is visible at the top of the image.
- Other Components:** Various other components like resistors, diodes, and smaller capacitors are scattered across the PCB.
