	Long press	Previous song: long press 2S.	
	Short press	Volume plus, a total of 16 levels	
	Long	Volume plus, a total of 16 levels	

### How to Use

After powering on, the blue indicator light flashes quickly, indicating that the speaker is in Bluetooth pairing mode.

Open the Bluetooth function on your phone and find the
Bluetooth name "X10", then click to connect. Once connected successfully, the blue light will stay on continuously.

### -TW S Interconnection

When two X10 speakers enter Bluetooth pairing mode at the same time (the blue light flashes), double-click the power button of each speaker. At this time, the speaker's yellow indicator light flashes, indicating that it has entered TWS automatic pairing mode. After waiting for 3 seconds, one of the speakers will become the main speaker with a steady yellow light and a fast flashing blue light, while the other speaker will have a steady yellow light, indicating a successful TWS pairing. Finally, search for the Bluetooth name "X10" in the Bluetooth list and click on it to connect. The steady blue light on the main speaker indicates a successful pairing.

#### - AUX Audio Cable

Insert the AUX cable into both the phone and the speaker. If the connection is successful, the blue indicator light will flash

### -Type - C Cable (supports simultaneous charging and playing)

Insert the Type-C cable into both the computer and the speaker. If the connection is successful, the blue and red indicator lights will stay on.

### -T F card (supports up to 64GB)

Insert the TF card into the speaker, and the speaker will automatically read the card and play the songs. At this time, the blue indicator light will flash slowly. The TF card supports APE/FLAC/WMV/WAV/MP3 format

## Safety Precautions

- 1. Please keep it out of reach of children to prevent accidents.
- 2. Do not place the device in high-temperature environments, including direct sunlight.
- 3. Do not place the device near fire or other overheated environments.

#### RF exposure statement

transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant

- to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of more of the following measures:
- -Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver.
- —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- —Consult the dealer or an experienced radio/TV technician for help.
- NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
